eSERVICE ORDERS - IN YOUR STORE

YOU WANT IT! WE'LL GET IT!

Never Say No— Just Check eService!

eService is an in-store ordering process that allows us to order products for customers for delivery. You will be able to offer your customer:

A much wider assortment of merchandise than is available in your store. We call this Assortment Extension.

An easy way to purchase Wedding gifts to be shipped directly to the Bride or to your home to bring to the shower or wedding.

An option to order items that are either out of stock or no longer available in your store.

eService has proven to be a tremendous resource for both our customers and stores. Knowing what is available in and feeling comfortable using e-Service will be critical to making sure a customer never leaves empty handed.

WEDDING & GIFT REGISTRY

Engaged couples can set up a wedding registry in any of our stores and online. We recommend that registrants visit one of our stores to take advantage of the expertise and experience of our registry consultants. Planning a wedding can be a very busy and stressful experience. Our consultants work hard to build relationships with every registered couple and to make the registry experience easy and fun. As a store, we must help couples create a wish list (i.e. registry) that meets their specific lifestyle and needs. By recognizing and greeting registrants enthusiastically - they're the customers with scan guns! - every associate in the store can help enhance the registry experience. Remember, registrants offer a lifetime of business plus they will send their friends to register with us and their guests to shop with us. Therefore, it's especially important that we go beyond in satisfying wedding registrants.

With the additions of such popular wedding registry categories such as Fine Tabletop and Giftware as well as luggage, we are now more than ever a great one-stop option. Bed Bath & Beyond is committed to being the leader nationally in the Wedding Registry business.

Some of our competitive advantages are:

- great customer service for registered couples and their guests
- low prices everyday
- complimentary gift packaging (in store)
- hassle-free exchanges and returns
- Friends Referral program - every registered customer receives a coupon for $25 off a $50 purchase for every friend they refer

Our Wedding Registry strategy is based on the 4 Bs:

***BUILDING the RELATIONSHIP**
***BUILDING the REGISTRY**
***BUILDING the BUSINESS by**
***BEING the EXPERTS**

Wedding registries are the most common type. However, customers can set up a registry for many other special occasions – housewarming, anniversary and retirement to name a few.

Dr John Frank
Ampelli Hair Clinic
5th St. #1122
New York, NY 10019

Dear Dr Frank

We would like to thank you for giving The Porter Group, Inc the opportunity to service your company. The Porter Group will refer candidates to Ampelli Hair Clinic. Any referrals made by or through The Porter Group Inc will be considered effective for a period of 12 months from the date the referral was first contacted or interviewed by Ampelli Hair Clinic. A placement fee is charged to Ampelli Hair Clinic, in the case, subsidiaries or affiliates of candidate is hired, or any agency will in 12 months of referral.

The Porter Group Inc will offer Ampelli Hair Clinic a discounted flat placement fee of $8,000 for each candidate placed with Ampelli Hair Clinic through The Porter Group, Inc.

Regarding placement, The Porter Group will offer a 60 calendar day guarantee for each candidate placed. Should candidate resign, or Ampelli Hair Clinic decide to terminate candidate within 60 calendar days from start date. The Porter Group will offer the following.
0 – 30 days – replacement candidate
31 – 60 days = 50% credit on future hire
If candidate is terminated due to reorganization, down-sizing, acquisitions or layoffs the placement fee is owed to The Porter Group Inc and the guarantee does not apply
Placement fee is due within 30 days of start date in order for guarantee to apply

Resumes submitted to Ampelli Hair Clinic by The Porter Group, Inc contain information furnished by candidates. Ampelli Hair Clinic acknowledges that information has not been independently verified by The Porter Group Inc. All fees, reference checks and other background checks, unless otherwise specified, are the responsibility of Ampelli Hair Clinic

Ampelli Hair Clinic agrees that if payment is more than 30 days late, at the option of The Porter Group, Inc., your account will be turned over for recovery. In the event, you agree to pay due to it fee (33% of the annualized compensation package), all collection costs and reasonable attorney's fees.

Once Ampelli Hair Clinic agrees to interview/hire referred candidate Ampelli Hair Clinic recognizes the ownership of the referral to The Porter Group Inc. and The Porter Group, Inc. is due a placement fee if candidate is hired. In the event that Ampelli Hair Clinic recruits a resume or the same candidate from two different agencies the resume which was first received by Ampelli Hair Clinic as evaluated by the owner (or his) time/date stamp, will be the recruiting agency considered eligible for a fee under the terms of this contract.

The Porter Group, Inc. adheres to an equal employment opportunity policy. All Candidates are referred based on their qualifications only, without regard to race, sex, age, religion, national origin, sexual orientation, marital status, veteran status or disability.

This agreement shall be interpreted in accordance with the laws of the state of Maryland. Both parties consent to jurisdiction and venue in any court situated in the state of Maryland

So That Nobody Has To Go To School If They Don't Want To

by Roger Sipher

A decline in standardized test scores is but the most recent indicator that American education is in trouble.

One reason for the crisis is that present mandatory-attendance laws force many to attend school who have no wish to be there. Such children have little desire to learn and are so antagonistic to school that neither they nor more highly motivated students receive the quality education that is the birthright of every American.

The solution to this problem is simple. Abolish compulsory-attendance laws and allow only those who are committed to getting an education to attend.

This will not end public education. Contrary to conventional belief, legislators enacted compulsory-attendance laws to legalize what already existed. William Landes and Lewis Solomon, economists, found little evidence that mandatory-attendance laws increased the number of children in school. They found, too, that school systems have never effectively enforced such laws, usually because of the expense involved.

There is no contradiction between the assertion that compulsory attendance has had little effect on the number of children attending school and the argument that repeal would be a positive step toward improving education. Most parents want a high school education for their children. Unfortunately, compulsory attendance hampers the ability of public school officials to enforce legitimate educational and disciplinary policies and thereby make the education a good one.

Private schools have no such problem. They can fail or dismiss students, knowing such students can attend public school. Without compulsory attendance, public schools would be freer to oust students whose academic or personal behavior undermines the educational mission of the institution.

Has not the noble experiment of a formal education for everyone failed? While we pay homage to the homily, "You can lead a horse to water but you can't make him drink," we have pretended it is not true in education.

Ask high school teachers if recalcitrant students learn anything of value. Ask teachers if these students do any homework. Quite the contrary: these students know they will be passed from grade to grade until they are old enough to quit or until, as is more likely, they receive a high school diploma. At the point when students could legally quit, most choose to remain since they know they are likely to be allowed to graduate whether they do acceptable work or not.

Abolition of archaic attendance laws would produce enormous dividends.

First, it would alert everyone that school is a serious place where one goes to learn. Schools are neither day-care centers nor indoor street corners. Young people who resist learning should stay away; indeed, an end to compulsory schooling would require them to stay away.

DEPARTMENT OF EDUCATION

AGREEMENT FOR GRANT APPLICATION REVIEWERS WHO RECEIVE COMPENSATION

FREEDOM OF INFORMATION ACT

I understand that under the Freedom of Information Act the Department may release my reviews verbatim to the public. The Department may also release individual reviewers' names in conformance with the Department's disclosure policy, but generally will not identify an individual reviewer with the review of a particular application. However, to avoid complicating the release of reviews, I agree not to make comments which could be seen as offensive or constitute an invasion of privacy of any individual.

CONFIDENTIALITY OF DOCUMENTS AND RESTRICTION ON CONTACT

I agree that assistance applications are made available to grant application reviewers solely for the purpose of reviewing those applications against the selection criteria of the grant program.

I also agree not to discuss the information, concepts, and procedures contained in the applications outside the Department during or after the review process, and to discuss them within the Department only with the panel members and in the context of and under the procedures for application review. I agree to follow the written instructions provided by the Department for the completion of technical review forms. I also agree to return the applications to the Department or dispose of them if so instructed. I agree to return no copies of documents or parts of documents related to this review.

I agree not to contact the originator of the application being reviewed concerning any aspects of its contents.

CONFLICT OF INTEREST

I certify to the best of my knowledge I do not have a conflict of interest with respect to any of the applications being considered for this competition.

I understand that I will be considered to have a "conflict of interest" when I, or certain individuals and entities with whom I have a relationship, have a financial interest in the outcome of this competition.

For example, I will have a direct conflict of interest in this competition if:

- For an application submitted to this competition, I have agreed to serve as an employee or consultant on the project, or have been offered the opportunity to do so and have not yet accepted or declined, if a grant is awarded, or if my personal financial interests will otherwise be affected by the outcome of the competition; or
- I helped prepare an application in the competition, even if I have no financial interest in the success or failure of that application.

I will also have a conflict of interest if certain entities or individuals I have a relationship with have a financial interest in the outcome of the competition. For example, I will have a conflict of interest if any of the following would benefit financially in any way from an application in the competition being funded:

- My spouse, my child, a member of my household, or any relative with whom I have a close relationship;

Renewal checklist

Tips for Renewing

- A nine-digit Personal Identification Number (PIN) or the phrase "insurance verified electronically" on your renewal notice means that your insurance company has provided us with verification that your vehicle is insured. Therefore, you do not have to provide proof of insurance when renewing. If all you can use our online and Self-Service Station renewal options. Online renewal and Self-Service Stations accept Discover, MasterCard or Visa. When renewing at the your lab and registration will be mailed within 14 business days. If your renewal notice does not have a PIN or the phrase "insurance verified electronically" on it, you must renew by mail at a Secretary of State office and provide your proof of insurance.
- If the address on your renewal notice is not correct and you are renewing:
  1) Online: Submit a change of address with your renewal.
  2) By Mail: Draw a line through the incorrect information on the renewal notice and clearly print your new address, including your county.
  3) At a Branch Office: Inform the clerk of your new address.
- Make sure the owner name and vehicle information is correct on each renewal notice. If the information is not correct, you must renew at a Secretary of State office.
- Renew before your current registration expires to avoid a $10 late fee.

Insurance Verified Electronically & Personal Identification Number (PIN)

A PIN or the phrase "insurance verified electronically" is printed on your renewal notice when the Department of State receives a software verification of your insurance from your insurance company.

Your PIN can only be used for the renewal year. Do not use a PIN for another vehicle registration renewal notice or from a previous year.

If a PIN or the phrase "insurance verified electronically" is not on your renewal notice, either your:

- Insurance company has not provided us with verification that your vehicle is insured, or
- Vehicle type is not eligible to be renewed online or at a Self Service Station at this time, or
- Vehicle identification number is not accurate on your insurance policy, or
- Insurance policy is too new.

When you renew . .

YOUTH

VILLAGES

The Inuits are notably not exempt in this category at all.

Another problem with the past diet hypothesis - in fact it happens one of the more glaring of commonsense - at first in the present collapse from Inuits (p. 7):

Inclusion: This idea of collapse is strongly linked with low levels of unhealthy, polluted, nutritionally poor diet as in the first (ii).

Looking at Environment 2: pure sheer refined studies have found a considerably healthier dietary mod and have shown to have no, or much better health outcomes (p. 118, 114)

Contrary to another better high-protein diets more frequent are actually linked with healthier lipid levels (p. 15, 16).

This area of research is not unlike to any means, but it does suggest that recent events, the most and benefit food of us, is actually beneficial for human health.

Looking at studies from most relevant, many times studies have contributed that anti-Pritikin diets have an impact on various levels of the body (p. 88, 97).

If anything, this additional data lends its hypothesis additional evidence and attention that diet is beneficial, which runs down many of popular and home (p. 1).

This hypothesis has shown that diet is high present reduce symptoms to be and frequent cardio with better base targets, HDL cholesterol.

Problem Lies: The research does not account the idea that past dynamic diets are harmful to home health. Primary, an acute, outlined, appear to be beneficial.

What About Acidity and Cancer?

The most comprehensive survey available on the relationship between "diet-induced" acidosis and cancer concluded that there is no direct link (iii).

Despite this evidence, many still argue that cancer cells which in an acidic environment and not the healthy in more alkaline diet.

But this idea is flawed for several reasons.

Tests and most importantly, the tumor-cell control most cells live pH-dependent (iv, v, vi).

Meanwhile, most if we suppose that tumor cells physiologically alter the pH values of blood or other tissues, and we cells are not controlled by Inuits' overall health.

In fact, Inuits' blood do control tests which what is a cancer-causing pH of 7.4. Many a cancerous tumor undamaged that for individuals' diseases, cancer cells as we effective environment (vii).

And while tumors alter blood or cells' environments, this tumors naturally causes this healthy environment. It is not the Inuits' environment that causes the cancer, it as the tumor that creates the acidic environment (viii).

Remain Like: Entirely unbeneficial or rare, that there is negligible added between any and tumors and environment. Cancer cells may vary in alkaline environments.

Can We Learn Anything From Ancestral Diets?

Looking at the paleolithic theory from both an evolutionary and scientific perspective reveals a lot.

One study commented that 6.6% of non-agricultural humans are diabetes (ix).

The one the same for inuits of the environments have the diabetes data.

Inuits (x). Cancer A Pritikin studies of the Second and Inuit patients was agreeing the first scientific view that a non-ever with last fats, to no patients on overall cases.

These outbreaks is non-diabetic mainstream system-wide support data based thoroughly on original tests.

Inuits haven't noted any established that linked any associated however the not diabetes testing data, when the other had are not good humans some (xii).

That means when obesity was reported, that our populations lived in vastly different climates with access to different foods. In fact, as it becomes more understandable as patients indeed fulfilled the experts' more than the western diets.

So despite the fact that ancestral had of healthy symptoms were happier and good looking diet, modern diseases of civilization were virtually non-existent (xiii).

Take Home Message

Unfortunately, these surveys data, the ultimate that is naturally quite positive.

Two Factor Authentication for Remote Desktop

Two-factor authentication requires not just your username and password but a token key as well. Some of us who have used it once in the past may be familiar with "RSA" keys for site access. Due to widespread smart phone use, "soft tokens" can be downloaded as an application rather than requiring the user to carry a device from which to retrieve the number sequence as a passcode. ULS will use Symantec/VeriSign's VIP software to provide the tokens:

Symantec Validation and ID Protection Service (VIP)

The VIP software is free and has no bandwidth requirements after the initial download.

The app can be installed by searching "Symantec VIP" in the Apple, Google, or Microsoft stores or by visiting this site: https://m.vip.symantec.com/home.v

For those **without** a smart phone or tablet, a Desktop version is available here: https://vip.symantec.com/desktop/download.v

On first run, please copy down the **Credential ID** and email it to tsrdesk@shaw.com. (If sent from your home email address, please include your full name.)

Once we have you Credential ID, it will be enabled in the system and a confirmation email will be sent back to you.

All users who use desktop.uls-now.com will need to have this software and their Credential ID in the system in order to access their remote desktop and applications starting Sept 1st 2013.

Once we have enough users registered the remote desktop site desktop.uls-now.com will require: Username/Password/Secure TokCode

Examples of the Credential ID Fields for the Desktop Version and Android:

Once the IT team configures your credential, we will email you with a link to test your access.

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord: so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to carry out the Internal Revenue laws of the United States. Internal Revenue Code sections 3402(f)(2)(A) and 6109 and their regulations require you to provide this information; your employer uses it to determine your federal income tax withholding. Failure to provide a properly completed form will result in your being treated as a single person who claims no withholding allowances. Providing fraudulent information may subject you to penalties. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation; to cities, states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their tax laws; and to the Department of Health and Human Services and to the National Directory of New Hires. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by Code section 6103.

The average time and expenses required to complete and file this form will vary depending on individual circumstances. For estimated averages, see the instructions for your income tax return.

If you have suggestions for making this form simpler, we would be happy to hear from you. See the Where To File for your income tax return.

Transportation Energy & Alternative Fuel Vehicles
www.energyquest.ca.gov/transportation/index.html

1 What is an alternative fuel vehicle? A vehicle that runs off alternative fuels.

2. What are alternative fuel? Fuels that aren't made from petroleum.

3 The United States Department of Energy officially recognizes the following eight as options of alternative fuels for vehicles

Alcohols — Liquefied Natural gas
Compressed Natural gas — Liquefied petroleum gas
Electricity — Liquids made from coal
Hydrogen — Biodiesel

Read more on (Click on fuels to complete worksheet.)

4 How much plant material does it take to make a gallon of gasoline? 27 lbs

Well, according to an expert - it takes 98 tons of prehistoric, buried plant material - that's 196,000 pounds - is required to produce each gallon of gasoline we burn in our cars, SUVs, trucks and other vehicles, according to a study conducted at the University of Utah

5 What fuel was used by Henry Ford to fuel his first car? Alcohol

6 Ethanol is generally made in the United States from corn. It can also be made from biomass a fancy name for Organic materials, which includes Agricultural crops and waste, plant material left from logging, and trash including cellulose (paper)

7 Natural Gas has been found to be one of the most Environmentally friendly fuels

8 It takes 12 to 24 batteries to power a electric vehicle car?

9 Most electric Vehicles today, can only go about 100 miles before you need to plug them in and recharge their batteries

10 Fuel cell vehicles are most like what type of alternative vehicle? Rockets

11 Fuel cell powered vehicles run on Hydrogen

12 What does the word hybrid mean? Something that is made together from two things

13 Hybrid primary power comes from the gasoline engine, but it uses the electric motor when it is accelerating or climbing hills. The electric motor does not need an external power supply for recharging. Its batteries are recharged by regenerative braking. This means that energy from forward momentum is captured during braking. This energy is then used to recharge the batteries.

14 Hydrogen is produce through electrolysis, simply splitting Water (H20) into oxygen and hydrogen by using electricity

15 Because hydrogen burns nearly pollution-free, it has been looked at as the Ultimate clean fuel

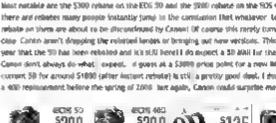
Canon Rebates 2008

Ads by Google

NOTE: Canon Rebates ended on July 19th 2008. The information here is for reference only. It's likely (but not certain) that there will be another round of rebates in late 2008 and if so, this page will be updated with the new information.

UPDATE | AUGUST 31st 2008 Canon have promotion a promotion which will run from August 31st 2008 to October 13th 2008. There's a $150 instant rebate on Canon EOS 40D and (including the 40D—70-300IS) and a $100 instant rebate on the XSi kit (including the XSi + EF75-300 IS). For more details please visit the Fall Rebate 2008 Page.

Canon announced their 2008 rebate program on May 8th 2008. The program will be an "instant rebate scheme (no forms to mail in) and is scheduled to run from May 18th to July 9th 2008. Most notable are the $300 rebate on the EOS 5D and the $200 rebate on the EOS 40D. Whenever there are rebates many people instantly jump to the conclusion that whatever items have a rebate on them are about to be discontinued by Canon! Of course this rarely turns out to be the case. Canon aren't dropping the related bodies or bringing out new versions. This is the 2nd or 3rd year that the 5D has been rebated and it's still here! I do expect a 5D Mkii for the fall of 2008, but Canon don't always do what I expect. I guess at a $3000 price point for a new model so the current 5D for around $1800 (after instant rebate) is still a pretty good deal. I don't expect to see a 40D replacement before the spring of 2009 but again, Canon could surprise me I guess.



Note: Also that there's a separate "mail in rebate of $150 on the Pixma Pro9500 printer or a $350 rebate if you buy an EOS 5D or an EOS 40D at the same time. For rebate see the Adorama website

Thank you for your purchase of

- One accessory (but also use to refer this document is useful)
- One Sun Fire X4140 or X4240 Server product kit
- One Important, Legal or Safety product

Please read the following carefully before you begin installing the server and before you power on the server for the first time. Following the instructions in this document will help you complete the installation process. Refer to the server's Installation Guide for more information about installing the server.

The Sun Fire X4140 and X4240 servers are energy efficient servers that comply with the European Union Restriction of Hazardous Substances (RoHS) Directive 2002/95/EC. This directive restricts the use of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB), and polybrominated diphenyl ethers (PBDE) in certain electronic equipment. For more information about Sun's implementation of the RoHS directive, see the Sun Environmental Compliance Web site at www.sun.com/environment/index.jsp.

A Prayer for My Lovely Wife

Posted on Nov 4th, 2009 | 9 comments

Dear Precious and Perfect Heavenly Father,

Thank for blessing me with such an amazing wife who I deeply cherish and desire. Please physically protect her as she pursues her work for the day. Watch over her as she drives on the road with crazy drivers, and engages in a hurting world of crazy people. When she is attacked by the enemy by the Holy name and blood of Jesus Christ, I pray all oppression is muted and bounded, and that she feel the safety and protection of resting in your eternally all-powerful arms.

Help her be focused, authentic, engaging, and loving as she interacts with the people throughout the day. Help us both submit to the guiding love and light of the Holy Spirit as we relate with each other, family, friends, and strangers.

Ads on bus sides could help keep schools rolling

By BEN CASSELMAN
Correspondent

SALEM — School buses on the North Shore could soon sport Nike swooshes, golden arches or other corporate logos under a new law passed by the state Legislature in the last session.

The measure, which was attached to the state budget and signed into law by acting Gov. Jane Swift earlier this month, allows Massachusetts school districts to sell advertising space on the sides of school buses as a new source of income.

The law does not mean that any logos on the North Shore will actually carry advertising. Most districts have contracts that prohibit bus advertising, and no boards has yet discussed it.

But Salem Superintendent Herb Levine said that if the school district is worth looking at — Levine said, adding that he wouldn't want to know how much money the district would receive — the issue of finance and administration for the Danvers school system agreed.

Buses: Schools OK'd to sell ads

Continued from page A1

"If it's an opportunity for me to bring revenue to the School Department, I would certainly do it," Warren said.

The law puts certain restrictions on school bus advertisements. Buses cannot carry ads for alcohol, tobacco, drugs or gambling, and must be otherwise "age appropriate." They also cannot cover more than 25 percent of the bus surface and are limited to the sides of the bus.

But everyone supports the measure. Critics of school bus advertising say the ads could distract other drivers, putting children at risk.

"If they're paying attention in the advertising, they may not be paying attention to stop lights or other things," said Ted Tull, administrative director for the National Association of State Directors of Pupil Transportation Services. "We try to keep the area around the bus as safe as possible."

But Monte Moses, school superintendent in Cherry Creek, Colo., said his district has allowed advertising for several years without incident, earning between $60,000 and $40,000 for the district each year.

"It's gone just fine," Moses said. "We have had no change in our safety pattern since we've had it."

Levine said he, too, doubts that advertisements would distract drivers.

"Just don't see that as an issue," he said. "We're just as conditioned to advertising all around us anyhow."

In addition to safety concerns likely to raise many of the same issues that arose in debates over Channel One, a news program designed for schools that includes advertisements. The program, which is used in Peabody but not in Salem, has been criticized for commercializing public education.

"My first instinct is that it isn't a great idea," said Salem School Committee member Norene Gachigi-nard, who compared bus advertisements to Channel One. "I think the kids get enough of that already."

But Levine, who also opposes Channel One, said bus ads would be far less intrusive than television commercials.

"The Cherry Creek community seems to agree. Moses said he has heard criticism of advertisements in schools and on football fields, but never of those on buses.

"It seems to be pretty well received," Moses said. "It still looks like a big yellow school bus."

Even if local school committees do authorize advertising, there likely will not be much of it on the North Shore. Most local school districts have independent companies to run student transportation, and there are only a few of their own buses. Salem owns only about a dozen buses, which it uses for special needs students, and Peabody owns none.

Mark Ansselmi, regional vice president for First Student, the company that provides buses to Salem and Peabody, said he has no intention of selling advertising on his buses.

"At this point, I would not entertain doing that," Ansselmi said. "We don't endorse it. Yellow school buses were designed to be yellow for a reason."

Under the new law, school districts could ask First Student for a discount on their contracts in return for allowing the company to sell advertising. But Ansselmi said he had received no calls from the districts, and he would not accept such an offer if one were made.

"There would be no discount available," he said. "It's a safety issue."

Peabody School Superintendent Jim Cuyler said his committee was not prepared to make such a request yet anyway. A subcommittee of the School Committee is currently reviewing advertising practices, but Peabody does not currently sell advertising on school property.

Beverly does own its own buses, and Beverly School Committee Chairwoman Virginia Coburn said the committee would likely discuss the advertising issue some-

"If it's an opportunity for me to bring revenue to the School Department, I would certainly do it."
— Richard Warren, director of finance and administration for the Danvers school system

Dear Employees:

It has been brought to management's attention that some individuals throughout the company have been using foul language during the course of normal conversation with their co-workers.

Due to complaints received from some employees who may be easily offended, this type of language will no longer be tolerated.

We do, however, realize the critical importance of being able to accurately express your feelings when communicating with co-workers.

Therefore, a list of 18 new and innovative phrases has been provided so that proper exchange of ideas and information can continue in an effective manner.

Texas Banking Commissioner And Antigua & Barbuda International Financial Sector Regulatory Authority Sign Agreement On Information Sharing

July 27 2001

The Texas Banking Commissioner and the Antigua & Barbuda International Financial Sector Regulatory Authority announce the signing of an Agreement on Information Sharing between the two financial institution supervisory authorities. The agreement provides for information sharing and efficient supervision for jointly supervised financial institutions.

The Agreement on Information Sharing is the first between the State of Texas, the Texas Department of Banking, and a foreign government regarding the supervision of financial institutions. The agreement is the culmination of more than a year's effort between the two banking supervisory authorities.

"Our goal is coordinated comprehensive supervision," said Texas Banking Commissioner Randall S. James today. "This document represents a landmark in cooperation between financial institution supervisory authorities of the State of Texas and a foreign government. It underscores that seamless supervision of both Texas State-chartered financial institutions with offices in other countries and foreign institutions with offices in Texas can be achieved."

The Executive Director of the Antigua and Barbuda Authority, Althea Crick, hailed the agreement as "an instrument of benefit to the supervisory authorities of both Texas and Antigua and Barbuda which will be able to share information about any Antigua and Barbuda or Texas banks operating in both jurisdictions in the interest of all parties including depositors."

"As international commerce becomes commonplace, closer cooperation between nations is essential on matters relating to banking and financial institutions," said Secretary of State Henry Cuellar. "The agreement that the Texas Banking Commissioner has signed with fellow financial institution supervisors in Antigua and Barbuda should serve as a model for similar agreements and as a preview of the kind of information sharing that will be necessary commonplace in the Global Century."

Dear Pete,

Permit me to introduce you to the facility of facsimile transmission.

In facsimile a photocell is caused to perform a raster scan over the subject copy. The variations of print density on the document cause the photocell to generate an analogous electrical video signal. This signal is used to modulate a carrier, which is transmitted to a remote destination over a radio or cable communications link.

At the remote terminal, demodulation reconstructs the video signal, which is used to modulate the density of print produced by a printing device. This device is scanning in a raster scan synchronised with that at the transmitting terminal. As a result, a facsimile copy of the subject document is produced.

Probably you have uses for this facility in your organisation.

Yours sincerely,

Phil.

Welcome to Windows® Fax and Scan

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, in the folders pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

APPALTO A FINE MESE

Banda larga, entro l'anno tutta la Liguria collegata in un bip

Arriverà in 41 comuni e 246 frazioni in provincia di Genova e della Spezia. Tre le aziende che hanno risposto al bando

GENOVA Comunque sia chiamata: sottorete raggruppamento di imprese che hanno risposto al bando dell'agosto 2008 - vince la gara il «gruppo» per portare la banda larga e ab-battere il digital divide nelle province di Genova e La Spezia, entro fa fine dell'anno tutti i comuni di questi territori saranno raggiunti dal servizio informativo. Per la fine di gennaio in Regione aggiudicheranno l'appalto (6 milioni e 680.000 euro e a febbraio i lavori potranno cominciare. Riguarda: saranno 15 comuni e 38 frazioni della provincia di La Spezia e 26, per un totale di 213 frazioni, della provincia di Genova. Il che fa salire ad oltre 246 i comuni nei quali avvicinamento in Liguria indicherà oltre all'hardware anche nel software, ai servizi che con la banda larga potranno essere proposti di fatto: dalle applicazioni nel sistema socio-sanitario, nei trasporti e nella logistica, a quelle per la sicurezza delle persone, del territorio e nella formazione.

Sui tempi per l'abbattimento del digital divide assicura il presidente della Regione ostentando un ottimismo che non tutti sembrano condividere: «Non supponiamo ancora che ha vinto (la commissione un quarto giorno sta esaminando le offerte tecniche, ndr), ma tutti le aziende che hanno partecipato hanno detto di poter completare il lavoro al massimo entro la fine dell'anno. Personalmente confido che nell'estate le reti della banda larga possa essere completata» Replica indirettamente al suo gruppo di Forza Italia in Regione Gabriele Saltò che, lunedì, durante la grande offensiva dal l'ufficio aveva detto che «sulle spiagge dalla banda larga non c'è ancora neppure una riga» nei programmi regionali.

Sempre entro anno la Regione, con l'aiuto del gestore che si sono già detti disponibili, ha intenzione di cablare anche 2 cosiddetti "buchi urbani" le zone di Genova che pur essendo centrali e non certo a fallimento di mercato (come invece sono i consolidati comuni dell'entroterra) sono rimaste scoperte dalla banda larga. Esempio? Via Caffaro a ha Ma doloiena, tanto per citarne un paio.

E andata avanti a smalti, la politica della Regione Liguria per rendere la banda larga un servizio a portata di tutti. Riguarda interventi e aree complessivamente dal 2006 al 2008 ed hanno riguardato circa venti mila liguri e le aziende insediate da 35 comuni, considerato tutti a fallimento di mercato, spesso - tutto l'entroterra ligure, ma soprattutto nell'imperiese, in Val Germanasca, in Val Trebbia, i non zona, quest'ultime, in cui i residenti sono stati quasi sperati.

In altri 10 comuni la banda larga arriverà attraverso accordi non esclusivi stipulati dalla Regione con gli operatori di telecomunicazione, mentre in provincia di Savona e La Spezia hanno predisposto un proprio progetto su comuni che non sono stati oggetto degli interventi regionali. Il finanziamento arriva dall'Europa (700 mila euro) e la proposta finanziaria per circa 6 milioni di euro.

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of the page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID block in many areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reports* option to *Every Error* before attempting a test fax. This way, even if the send fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products; consult the product User's Guide for specific steps.

1. Send a one page blank and white test fax to **1-888-hpfaxme (1-888-473-2963)**.
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and number a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Pan Roasted Chanterelle-Gorgonzola Stuffed Chicken Breast

Recipe Courtesy of Kent & Kevin Rathbun

2 ounces bacon fat
1 tablespoons garlic, minced
1 tablespoons shallot, minced
2 ounces yellow onion, minced
4 ounces chanterelle mushrooms
1/2 cup white wine
4 ounces gorgonzola blue cheese
1 tablespoon basil, chopped
1/2 tablespoon oregano, chopped
Kosher salt, to taste
Cracked black pepper, to taste

For the pan roasted chicken breast
2 (12-ounce) Airline chicken breast, split into 4, skin on
1 teaspoon kosher salt
1 teaspoon cracked black pepper
6 ounces chanterelle mushroom-gorgonzola mix
2 ounces canola oil

For the chanterelle mushroom-gorgonzola stuffing:

In a medium hot sautepan add the bacon fat and saute garlic, shallot and onions until translucent.

Add chanterelle mushrooms and continue sauteing until tender. Deglaze with white wine.

Chill and set aside.

In a medium mixing bowl add cool chanterelle mushroom mix, gorgonzola, basil, oregano, salt and black pepper. Fold together until incorporated. Chill and set aside for later use.

For the pan roasted chicken breast:

Preheat the oven to 350 degrees.

With a boning knife, butterfly 4 chicken breasts. Stuff each breast with 2 ounces of chanterelle mushroom-gorgonzola mix then tie with butchers twine to ensure that it stays together.

Season each chicken breast with salt and cracked black pepper.

In a large hot saute pan add canola oil then lay the chicken in the pan skin side down. Sear for about one minute then turn over and continue cooking for 30 more seconds.

Place the entire pan in a 350 degree oven and roast until done. Serve with onion jus immediately.

Prep Time: 20 minutes

COMMONWEALTH OF VIRGINIA
HOUSE OF DELEGATES
RICHMOND

WILLIAM J. HOWELL
SPEAKER

February 2, 2016

Dear Friends,

The Virginia Coastal Access Trail is a planned 3.8-mile system that will connect Virginia Beach's 2nd Street Oceanfront to the Chesapeake Bay Bridge-Tunnel. The House of Delegates has considered almost 5,000 pieces of legislation in this time, and we'll have to look at another 500 pieces of legislation over the next couple of days. Needless to say, it's been a busy session.

Creating good Virginia jobs, building stronger schools, addressing Virginia's transportation funding crisis and crafting a fair state budget remain the top priorities for this year. I am proud to report that the House of Delegates has already accomplished a great deal on these issues.

Jobs and the economy are the most important issues. The House of Delegates is working to grow jobs and create a stronger business climate, so that we can support entrepreneurs.

Our bipartisan Virginia Economic Development Partnership Fund is creating good, high-paying jobs in Virginia. We have expanded the Virginia Jobs Investment Program, a customized training program for Virginia businesses and job creators. We also dedicated $5 million to the Governor's Opportunity Fund to attract new companies to Virginia.

We have passed legislation to prepare a workforce trained by students and adults. We expanded the Virginia Workforce Council, which directs workforce training policy for Virginia's workforce system. We created Work Based Learning Partnerships to connect students with apprenticeship and internship opportunities.

The House of Delegates also passed legislation to help small businesses and entrepreneurs to start and grow their businesses. The Small Business Jumpstart Program provides seed money for startup companies that have the potential to create jobs and grow the economy. Some of the greatest American companies, like Ford Motor Company and Apple Computers, were started in garages. We want the next great innovation or business to be started in Virginia.

All of these measures will help to bring an economic boom. We will continue to make Virginia the best state for business by keeping taxes low, cutting unnecessary regulations and promoting a strong workforce.

A high-quality education system will also help to fuel our economic engine. We have passed a budget that funds K-12 education at an all-time high and recognizes and rewards our teachers with a 2 percent pay raise. Additionally, this budget eliminates outdated, burdensome red tape and gives all students the chance to succeed by providing school choice and creating a system to reach and help failing schools. Education is about opportunity. We can educate children and prepare them for the jobs of tomorrow

Subject: New Requirement for Commercial and Government Entity (CAGE) Code Ownership or Control of Offeror ROOPTECH CONSULTANTS, INC - 114829677 / ORWY1

This email was sent by an automated administrator. Please do not reply to this message.

Effective November 1, 2014, a new Federal Acquisition Regulation (FAR) Subpart 4.18 – Commercial and Government Entity Code (CAGE) requires you to answer questions about your entity's ownership. In order to maintain an active registration in SAM. To better understand how this impacts your entity registration, please carefully read the following four sections:

1. Ownership of Offeror Questions
2. Ownership of Offeror Definitions
3. Immediate Owner and Highest-Level Owner CAGE Codes
4. Prepared How to Report Your Owner's CAGE Code(s)

1. Ownership of Offeror Questions

The new Ownership of Offeror questions are in the "Core Data" section of your entity registration. Once you pass the "CAGE or NCAGE Code" page, you will see a new page called CAGE Ownership Details.

On this new page, SAM will present you with a series of questions to determine if another entity owns or controls the entity you are registering. If you state you have an owner, you must provide the CAGE Code for that owner. SAM will then verify your owner's CAGE Code with the Defense Logistics Agency (DLA) CAGE database.

The responses you provide on this page will be used to complete a new FAR provision (FAR 52.204-17 Ownership or Control of Offeror) which you will certify to in the "Representations and Certifications" section of your entity registration.

There are two levels of ownership questions you will have to answer on the following page: Immediate Owner (if applicable) and Highest-Level Owner (if applicable). When reading the definitions below, remember the entity registration you are updating is considered the potential Offeror.

2. Ownership of Offeror Definitions

An Immediate Owner means an entity, other than the offeror, that has direct control of the offeror. Indicators of control include, but are not limited to, one or more of the following: Ownership or interlocking management, identity of interests among family members, shared facilities and equipment, and the common use of employees.

The Highest-Level Owner means the entity that owns or controls an immediate owner of the offeror, or that owns or controls one or more entities that control an immediate owner of the offeror. No entity owns or exercises control of the highest level owner.

3. Immediate Owner and Highest-Level Owner CAGE Codes

The Original Starting Strength Novice Program

Workout A	Workout B
3x5 Squat	3x5 Squat
3x5 Bench Press	3x5 Press
1x5 Deadlift	5x3 Power Clean

Workouts A and B alternate on 3 nonconsecutive days per week

Practical Programming (2nd Ed) Novice Program

For the first few workouts:

Workout A	Workout B
3x5 Squat	3x5 Squat
3x5 Press	3x5 Bench Press
1x5 Deadlift	1x5 Deadlift

Once the freshness of the deadlift has worn off a little and the deadlift is established well ahead of the squat the power clean can be introduced:

Workout A	Workout B
3x5 Squat	3x5 Squat
3x5 Press	3x5 Bench Press
1x5 Deadlift	5x3 Power Clean

After the above is followed for a short time, chin ups and pull ups can be added along with back extensions or glute/ham raises for a break from pulling every workout:

Workout A	Workout B
3x5 Squat	3x5 Squat
3x5 Press	3x5 Bench Press
1x5 Deadlift/5x3 Power Clean (alternating)	3x10 Back Extension
	3xFailure(15 max)* Chin-ups/Pull ups (alternating)

Unweighted Chin ups/Pull ups are performed for three sets to failure or to a max of 15. Once 15 reps per set can be completed start adding weight.

So a two week example of the last, more complex, version of the novice program using a "
Monday/Wednesday/Friday workout schedule would look like this

If it were possible to see these stars more individually, you could make a map and see that they are distributed around us more or less randomly.

- We've very close (500 lightseconds) to a star. This is probably an necessary condition for the origination and maintenance of life.
- Stars are very far apart (average about 3 lightyears for the closest dozen) compared to their size (about 2 lightseconds for the Sun), by a factor of 250 million or so.
- Many stars occur in multiple systems, shown here by the suffixes A, B and C from brightest to dimmest. In fact about 50% of stars in the Galaxy are in multiple systems. The nearest star is a triple. And we may be missing many dim stars.
- Most of the nearby stars are dimmer (larger numbers for absolute magnitude) than our Sun, by factors of 100 to 10,000.

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

⚠ WARNING

Only qualified personnel familiar with the construction and operation of the equipment and the hazards involved should perform these procedures. Failure to observe these precautions could result in severe bodily injury or loss of life.

⚠ CAUTION

To avoid damaging the unit, do not apply power to the unit or any of its components after unit has been exposed to extremely high or low moisture conditions until all electrical components are completely dry. Failure to observe this precaution may result in damage to the equipment.

APPLICATION

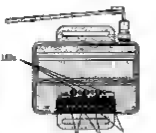
The controls can be used as a single or three channel controls to control up to 3 gates or commercial door operators. The controls can also be used with a 3 button remote control to operate the OPEN, CLOSE and STOP feature on a commercial door operator. The receiver is not for use with Security² enabled garage door openers or devices.

Each channel is compatible with a certain number of remote controls and keypads. Refer to the list below.

- CH1: 50 remote controls and 2 keypads
- CH2: 20 remote controls and 2 keypads
- CH3: 20 remote controls and 2 keypads

When the channel has receiver full capacity for remote controls, all LEDs will blink 3 times. When the channel has channel full capacity for keypads, all LEDs will blink 4 times. Additional accessories can be programmed, however the newly programmed accessory will replace the first programmed accessory.

NOTE: *The channel will only allow you to program a button on the remote control to one channel at a time. For example: if the button on the remote control is already programmed to channel 1 and then is programmed to channel 3, the button will be erased from channel 1 and will only work on channel 3.*



INSTALLATION

The receiver and antenna use TV Type F-female connectors. The antenna can be connected directly to the chassis or it can be installed remotely using a coaxial cable extension kit (Model 86LM 15 ft. or 86LMT 24 ft.)

1. Select a location for the receiver which allows access to the terminals and space for the antenna. Ensure antenna does not touch metal surfaces. DO NOT bend or fold the antenna.
2. Fasten the receiver securely with the hook and loop fasteners (provided) or screws (not provided).
3. After installation is complete, antenna power. You may use 86LM plug-in or 96LM wired-in transformer or power provided from your operator (9-36 V AC, 8-24 Vdc or see power ratings on next page) ***NOTE:*** *The receiver can command the operator to close the door or gate by constant pressure. This feature is only available with a wireless control panel (Model 892LM). To enable this feature, press and hold the push bar until the gate or garage door moves to the closed position.*

⚠ WARNING

To prevent possible SERIOUS INJURY or DEATH from electrocution.

- Be sure power is NOT connected BEFORE installing the receiver

To prevent possible SERIOUS INJURY or DEATH from a moving gate or garage door:

- ALWAYS keep remote controls out of touch of children. NEVER permit children to channel or play with remote control transmitters.
- Activate gate or door ONLY when it can be seen clearly, is properly adjusted, and there are no obstructions to door travel.
- ALWAYS keep gate or garage door in sight until completely closed. NEVER permit anyone to cross path of moving gate or door.

⚠ WARNING

To prevent possible SERIOUS INJURY or DEATH, the use of CONSTANT OPERATION on residential openers is PROHIBITED.

When a receiver is used to activate a commercial door operator a reversing edge MUST be installed on the bottom of the door. Failure to install a reversing edge under these circumstances may result in SERIOUS INJURY or DEATH to persons trapped beneath the door.

WIRING

Refer to your *commercial door operator or gate operator owner manual or wiring diagrams* for specific wiring information.

TEST

#2

Congratulations on taking the first step toward addressing your hearing loss!

Dear Richard,

Thank you for your recent visit to assess your hearing loss — a condition that affects approximately 48 million Americans.[1] Evidence continues to mount that untreated hearing loss is linked to many conditions that could affect your well-being, including Alzheimer's, dementia, an increased risk of falling and more.[2] Without treatment, hearing loss will continue to deteriorate over time.[3]

For a limited time, we are offering you **a special discount of up to $1000 off a pair of Ultimate hearing aids.**

These are the **most advanced hearing devices** on the market today, with innovative features, including connecting to the Internet, enabling you to listen to multiple speakers and the convenience of a new rechargeable unit. Their minuscule size, coupled with hair-toned color options, provides true discreetness.

Call (855) 609-0818 to make an appointment. **Offer expires January 31, 2018.**

Sincerely,

Chenoa James

Installation Help

Always wait at least 30 minutes for software to install.

DO NOT ATTEMPT TO MAKE A CALL OR MAKE ANY KEYSTROKES UNTIL AFTER YOUR MAGICJACK IS PROPERLY INSTALLED.

Before using magicJack™ U.S. software, close all other applications (if running).

1. Unplug the magicJack PLUS from the USB port on your computer.
2. Wait at least 30 seconds.
3. Plug the magicJack PLUS back into the same USB port on your computer.

The steps above will resolve the majority of installation issues.

Another common problem may be that you have "borrowed" your host's IP address from your router. Each computer connected to a router must have a unique IP address. Unplug your AC power cord (or hub) from the router, power it back up, and then plug your computer directly into the router.

Fight Bad Breath with Yogurt

Japanese researchers have found that regular consumption of yogurt can help you fight bad breath. The active bacteria in yogurt help reduce levels of hydrogen sulphide (H_2S) in the mouth. H_2S is an odorous, foul breath. To test H_2S that produces the foul odour, volunteers were given 90 grams of plain yogurt daily for six weeks. The levels of H_2S fell in 80 percent of the participants.

Researchers also found that yogurt contributes to better periodontal health. The levels of plaque and the gum disease gingivitis were significantly fewer among yogurt eaters.

Recommendations:

- Eat about 90 grams of low fat plain yogurt daily. If you desire better oral health, don't consume sugared yogurt. Sugar is a highly available food source for plaque forming bacteria that produce the formation of cavities.
- Make sure your yogurt contains live yogurt active cultures. Lactobacillus acidophilus, Bifidobacterium bifidum, Lactobacillus bulgaricus, and Streptococcus thermophilus. You can also take these cultures in pill form for oral health but prevention is better than cure.
- Make sure you brush twice a day with fluoride toothpaste, cut down on the frequency of sugary snacks and drinks, floss daily and visit your dentist regularly.

CHANGE NOTICE

TO: Recipients of the SONET Multiplexer TM-50/ADM-50 Commands and Messages Manual, Publication Number 8002IR 823-002

FROM: Customer Documentation Department, Alcatel Network Systems, Raleigh, North Carolina

DATE: September 1992

SUBJECT: Change Notice for the SONET Multiplexer TM 50/ADM-50 Commands and Messages Manual, Issue 4

The enclosed updates the SONET Manual from Issue 3 to Issue 4, and completely replaces your existing Issue 3.

This update includes information on software download capability for DS1 grooming and incorporates Addenda dated September 1991.

New or revised manual sections are identified by a bullet (•) next to the Section number in the Table of Contents.

NOTE Holders of existing TM-50/ADM-50 manuals will receive new manual covers and spines which reflect the revised format. Existing TM-50/ADM-50 covers and spines should be discarded and replaced by the new covers and spines, which will be distributed as manuals in the TM-50/ADM-50 family are updated.

Questions regarding this CHANGE NOTICE should be directed to:

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts formatting colours and graphics of any source document regardless of the application and platform used to create it

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing

- ***Anyone, anywhere*** can open a PDF file All you need is the free Adobe Acrobat Reader Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts software, and operating systems Fonts and graphics are not lost due to platform, software and version incompatibilities
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

White House press secretary Sean Spicer barred television cameras from Wednesday s media briefing, the latest sign that he is scaling back interactions with journalists.

Spicer spoke for just 12 minutes, fielding questions for about 10, and said at the beginning of the session that news outlets were "free to use the audio after this has concluded." Reuters, which had been carrying a live audio feed, quickly cut it off. But Fox News, CNN and MSNBC all continued to air sound of the briefing. Reporters could be heard grumbling as Spicer ended the Q&A.

"Quite a brief daily briefing," MSNBC s Katy Tur remarked at the conclusion. On Fox News, Janna Lee told viewers that "this is something new. We're not used to an audio-only press briefing, and there'll be some news out of that, I'm sure."

I'm sure, too. We're witnessing a disappearing act by Sean Spicer.

His on-camera briefing on Tuesday was his first in 15 days — which was largely understandable because he spent much of the previous two weeks traveling overseas with President Trump. But instead of allocating ample time, in recognition that many questions had piled up, he ended the session after just 30 minutes and left in a huff, following an exchange with reporters over "fake news."

...sumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-510-545-9090 (a number in Northern California.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero, this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

⚠ Warning

Keep in mind that ignorance of following avoidable acts may lead to fire or electrical shock

- Placing product close to the flammable solvents such as alcohol or thinner
- Use of power cord and/or cable other than the one supplied.
- Plugging in the power cord to voltages other than specified.
- Plugging the power cord incompletely such as half the way
- Plugging in and unplugging the power cord with wet hands
- Use of damaged cords caused by pulling, twisting, tying or excessively bending
- Placing heavy objects on the cord.
- Using bundled or knotted power cord.
- Connecting excessive numbers of plugs into one electrical outlet. Using multiple extension cords
- Leaving power cord plugged in while lightning
- Plugging in the cables and power cord during cleaning. Using flammable spray or liquids such as alcohol or thinners for cleaning. Wipe it with a soft dry cloth instead
- Taking apart or modifying the product and accessories

Unplug the power cord once a month to see if power cord/plug shows anything unusual such as heat, rust, bent, scratch, split and so on.
Unplug the cord/plug and call for service if above is observed since they may lead to a fire or an electric shock afterwards

If you hear unusual noises, see smoke, feel excessive heat, smell anything unusual, drop metallic part or spill liquid into the product, immediately unplug the power cord and call for service. Continued use of the product may result in fire or electrical shock.

Homemade Liquid Hand Soap for Sensitive Skin

You will need:

- A bar of soap
- A cheese grater
- A medium-large microwave safe bowl
- A funnel
- Water (preferably RO, distilled or filtered water)
- Glycerin
- A decorative pump bottle to put your finished hand soap in

1) First, grate the bar of soap into little shreds.

2) Mix with 3 cups water
And two teaspoons glycerin. (You can find glycerin at CVS pharmacy in the facial soap section.)

3) Microwave for 3 minutes. (You will have a bubbly soup.)

4) Let it cool and use the funnel to pour it into your bottle of choice

Done!

PRÉCIS Indications for Use and Limitations.
Stucies indicate PRÉCIS is useful in almost specimens if components diagnosed with gastrointestinal stromal tumor or melanoma who are being considered or angered therapy. Result should be interpreted in conjunction with other laboratory and clinical findings. Performance characteristics refer to the analytical performance of the test. Pharmacophoric or clinical utility is based on well-established methods, but may be associated with drug efficacy or patient outcome. We may be able to provide physicians with tests by choose appropriate tests and to assure the convenience of ordering a multi-test profile does not prevent physicians from making informed decisions regarding which tests are medically necessary. Each of the tests offered by bioTheranostics has profile given also may be ordered individually using the bioTheranostics Test Requisition. No test was developed and performance characteristics have been determined by bioTheranostics, nor it has not been cleared or approved by the U.S. Food and Drug Administration. This test is used for clinical purposes. It should not be regarded as investigational or for research. How the information reports guides patient care is the responsibility of the physician. bioTheranostics is certified under the Clinical Laboratory Improvement Amendments of 1988 as qualified to perform high complexity clinical laboratory testing.

A POLICE CAREER

As a police recruit with the Alicon Police Service you begin your career as a patrol constable and will be expected to provide a professional police service to the citizens of Alicon. You will be responsible for answering all calls for police service during your shift. Your recruit year will also provide variety. No one day or activity the same as the next. From responding to citizens complaints to writing traffic tickets, police work is an ever changing perpetual kaleidoscope. We expect you to make your own decisions in most cases where there are no textbook solutions.

You will also lose any preconceived notions you have acquired about police work through glamorized television portrayals of shoot-outs and car chases. Police work is much different from this portrayal and you will discover it is a challenging, rewarding and fulfilling profession. You are given a level of authority, responsibility and community status unsurpassed by most other careers.

Our police officers value the "human" element in all of the activities they serve. As you become immediately familiar with neighborhood addresses, individuals and problems you develop long-term strategies for resolution. In the Alicon Police Service we look beyond each individual complaint and try to deal with the real issues as to why the complaints are occurring.

As your experience progresses opportunities exist for you to expand your skills and further your personal development. A career in the Alicon Police Service is in reality seven all careers rolled into one.

Great God, You are in our world. Your majesty is reflected in your creation about us.

But there are multitudes who do not feel Your concern or acknowledge Your love

Is it because Your servants have failed to carry out Your command and commission that we have yet to sense the significance of our salvation and the purpose of our mission.

Forbid, O God, that we be deaf to the cries of the poor and indifferent to those who have needs.

May we identify with those who are oppressed and help to bear the burdens of those who suffer about us

May we hear Your voice of concern and feel Your loving touch through Your servants who are in this world to manifest You to men about them

The glory is Yours, O God, and we shall praise Your name and celebrate Your cause together

This Brother inkjet machine has been finely tuned to provide excellent, accurate and long lasting printed pages when using Genuine Brother Innobella(TM) ink

The use of non brother inks in this machine may potentially result in inferior output quality and/or machine damage

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s)

UNITED STATES DEPARTMENT OF COMMERCE
Economics and Statistics Administration
U.S. Census Bureau
Washington, DC 20233-0001
OFFICE OF THE DIRECTOR

Uma mensagem do Diretor do Gabinete de Censo dos EUA.

O U.S. Census Bureau (Gabinete de Censo dos EUA) está realizando o Pesquisa à Comunidades nos EUA (ACS, American Community Survey). Um representante do Census Bureau irá contatá-lo para ajudá-lo a preencher o pesquisa. No pesquisa haverá perguntas sobre as características de seus familiares, incluindo tópicos como a educação, o emprego e a habitação. Agradecemos a sua ajuda porque o sucesso deste pesquisa depende de sua colaboração.

O ACS gera informação crítica e atualizada que é utilizada para atender as necessidades das comunidades dos Estados Unidos. Por exemplo, os resultados deste pesquisa poderão ser utilizados para decidir sobre a necessidade de se criarem novas escolas, hospitais e sedes de bombeiros. Os dados dos pesquisas serão utilizados pelos governos federais, estaduais e locais para tomar decisões e para desenvolver programas que proporcionarão serviços de saúde, de educação e de transporte que o afetarão e você e à sua comunidade. Os dados deste pesquisa também ajudarão as comunidades a planejar intervenções em situações de emergência, que poderão afetar a si e e seus vizinhos.

O Census Bureau escolheu a sua residência, e não você pessoalmente, como fazende parte integrante de uma amostra aleatoriamente selecionada. A lei dos Estados Unidos exige que você responda a este pesquisa (Título 13, Código dos Estados Unidos, Seções 141, 193 e 221). Estimamos que este pesquisa ocupará 15 minutos do seu tempo.

Gostaríamos de enfatizar que qualquer informação dada ao nosso representante permanecerá confidencial. Por lei, o Census Bureau não pode publicar nem divulgar a ninguém qualquer informação que o possa identificar a si e ao seu familiar (Título 13, Seção 9 9). A informação dada só poderá ser utilizada para fins estatísticos.

Caso tenho acesso à Internet e queira saber mais sobre o Pesquisa à Comunidades nos EUA, visite o nosso Web site em census.gov/acs.

Obrigado por sua ajuda

NOTE

If you are programming your thermostat for the first time and you want programming for all days of the week to be the same as Monday's program, press RUN or HOLD at the point and proceed to **Enter Cooling Program**. (This simplified COPY DAY feature only works the first time you program your thermostat. If you want to copy one day's programming to a specific day programming, refer to **COPY DAY FUNCTION** in **OPERATING FEATURES**. If you are changing your thermostat's programming, you must program each day separately.)

8. Press HOLD once, "TU" (indicating Tuesday program) will appear in the display along with the start time for the 1st heating period and the currently programmed temperature.
9. Repeat steps 3 through 7 to complete Tuesday's heating programming.
10. Continue entering each day's programming until all heating periods (and temperatures) have been entered.
11. When you have completed entering your heating program, press RUN.

Enter Cooling Program

⚠ CAUTION

If the outside temperature is below 50°F (10°C) do not power to the cooling system before programming. Energizing the air conditioner compressor during cold weather may cause personal injury or property damage.

1. Move SYSTEM switch to **COOL** position.
2. Follow the procedure for entering your cooling program using your selected cooling times and temperatures.

CHECK YOUR PROGRAMMING

Follow these steps to check your thermostat programming one time before beginning thermostat operation.

1. Move SYSTEM switch to **HEAT** position.
2. Press PRGM to view the 1st Monday heating period time and temperature. Each time you press PRGM, the next heating period time and temperature will be displayed in sequence for Monday. Press HOLD to display Tuesday's 1st heating period and press PRGM to view each of the remaining Tuesday's heating period time and temperatures. To view each day's heating program, press HOLD to change day and then press PRGM to look at each programming period for the day. (You may change any time or temperature during this procedure.)
3. Press RUN.
4. Move SYSTEM switch to **COOL** position.
5. Repeat step 2 to check cooling program.
6. Move SYSTEM switch to **HEAT** or **COOL** and press RUN to begin program operation.

YOUR THERMOSTAT IS NOW COMPLETELY PROGRAMMED AND READY TO PROVIDE MAXIMUM COMFORT AND EFFICIENCY!

TROUBLESHOOTING

Reset Operation

If a voltage spike or static discharge likewise out the display or causes erratic thermostat operation you can reset the thermostat by pressing ⏷ ⏶ and TIME at the same time. This also resets the factory defaults to the configuration menu and program. If the thermostat has power has been reset and still does not function properly contact your heating/cooling service person or place of purchase.

Batteries

For optimum performance, we recommend replacing batteries once a year with fresh "AA" Energizer® alkaline batteries.

Symptom	Possible Cause	Corrective Action
No Heat/No Cool/No Fan (common problems)	1. Blown fuse or tripped circuit breaker 2. Furnace power switch is OFF 3. Furnace blower compartment door or panel loose or not properly installed.	Replace fuse or reset breaker. Turn switch to ON. Replace door panel in proper position to engage safety interlock or local switch.
No Heat	1. Pilot light out is. 2. SYSTEM Switch not set to **HEAT** 3. Loose connection in thermostat or system. 4. Furnace Lock-Out Condition, reset may also be intermittent.	Re-light pilot. Set SYSTEM Switch to **Heat** and raise setpoint temperature above room temperature. Verify thermostat and system wires are securely attached. Many electrical fuses safety devices that shut the system down when a lock-out condition occurs. If the heat works intermittently contact the furnace manufacturer or local blower person for assistance. Diagnostic: Set SYSTEM Switch to HEAT and raise the setpoint above room temperature. Within a few seconds the thermostat should make a soft click sound. This sound usually indicates the thermostat is operating properly. If the thermostat does not click, try the reset operation listed below. If the thermostat does not click after being reset contact your heating and cooling service person or place of purchase for a replacement. If the thermostat clicks, contact the furnace manufacturer or a service person to verify the heating system is operating correctly.

USGA/SCGA A Bulletin

It's make time??!!

Colleagues. The AARP had negotiated with the PGA to modify the Rules of Golf for Runner

Rule 1.a.5.

A ball sliced or hooked into the rough shall be lifted and placed on the fairway at a point equal to the distance it carried or rolled into the rough with no penalty. Andy should not be penalized for tall grass which groundskeepers failed to mow

Rule 2.d.5.(b).

A ball hitting a tree shall be deemed not to have hit the tree. This is simply bad luck and luck has no place in a scientific game. Andy must estimate the distance the ball would have traveled if it had not hit the tree and play the ball from there.

Rule 3.b.3.(a).

There shall be no such thing as a lost ball. The missing ball is on or near the course and will eventually be found and picked up by someone else, making it a blown ball. The player is not to compound the felony by charging himself or herself with a penalty

Rule 4.c.7(b).

If a putt passes over a hole without dropping, it is deemed to have dropped. The law of gravity supersedes the Rules of Golf

Rule 5.

Putts that stop close enough to the cup that they could be blown in, may be blown in. This does not apply to balls more than three inches from the hole. No one wants to make a travesty of the game.

Rule 6.a.9(ii).

There is no penalty for so-called "out of bounds." If penny-pinching golf course owners bought sufficient land, this would not occur

Rule 7.a.19(c).

There is no penalty for a ball in a water hazard as golf balls should float. Andy should not be penalized for manufacturers' shortcomings

Rule 8.k.9(e).

Advertisements claim that golf scores can be improved by purchasing new golf equipment. Since this is financially impracticable for many senior golfers, one-half stroke per hole may be subtracted for using old equipment.

Please advise all of Andy's friends of these important rule changes.

Random Stuff Sent From Your Fax Machine
Fax something interesting toll free to 1 855 330 1239 or 1 213 294 3943

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1 855 330 1239 (your fax will never arrive anywhere) or 1 213 294 3943 (long distance to Los Angeles, California) and it should appear here within a couple of minutes. (It's a toll-free number if you're in the USA.) Keep it clean & legal.

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

Privacy Policy: We hate spam and junk faxes, and will absolutely not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else.

This 1973 Chevrolet Chevelle Laguna Colemnade 2 door hardtop is a very straight no-rust project car ready for restoration or street rodding. It is an a/c car. There is a dent to the right quarter panel but it is repairable. The grill and bumpers are good. All the glass is good. The hood is off the car but in good condition. The dash is good. The interior is all there. There is no motor or transmission. Good solid, straight, no-rust 73 Lagunas are getting hard to find and the Colemnade option is fairly scarce. This is your opportunity to build a Chevelle street rod on a reasonable price. Please call (406) 338-1270 for details about this 73 Chevelle.
For sale $9,000.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

STANDARD 5 TYPESTYLES

Pica is perhaps the most popular of all type styles. Generally regarded as standard for typewritten material, Pica is easy to read, conservative of space, and meets all requirements of general office work and correspondence. Pica Type gives copy that is pleasing in appearance and appealing to the eye.
ABCDEFGHIJKLMNOPQRSTUVWXYZ !@#$%¢£()_+1/4 ", ?—½/2;',./

Empire Type is a distinctively shaded type ideally suited for executive and personal correspondence. A specially designed style, Empire meets the demand for a type face of outstanding distinction. Empire offers written material that is easy to read, pleasing in appearance, and appealing to the eye.
ABCDEFGHIJKLMNOPQRSTUVWXYZ

Presidential Pica offers the ultimate in distinctiveness for executive correspondence. The large shaded letters are easy to read and lend an air of differentness and importance to all correspondence. This distinctive type is highly recommended for preparing offset masters.
ABCDEFGHIJKLMNOPQRSTUVWXYZ

Elite with Pica spacing offers a distinctive appearance that is often favored for executive and personal correspondence. The wider spacing of this type provides copy of exceptional neatness and legibility. Ten Pitch Elite gives copy that is easy to read, pleasing in appearance, and appealing to the eye.

A little about me and why I am interested in this position

- I have worked in an administrative atmosphere for over ten years. I believe that I possess the qualifications that your business is looking for. I am very computer savvy and technically inclined, as I am a Certified IT Technician. I repair computers for a living and work with different types of software every day.

- I have previous experience as a docket clerk at a large multi-state law firm. My docket clerk position allowed me to learn the operations, procedures, and machine functions of a mailroom (IKON.)

- I have experience in corporate environments and have the ability to deal with *many* different types of personalities effectively.

- I have a pleasant personality/ sense of humor, am punctual and professional, and I am *always* game for learning new skills.

- I live about two minutes from your office which is definitely a plus!

- I am not married and have no children, which allows me to work overtime hours and be flexible when my help is needed to meet deadlines.

- I don't party or drink so you would never have to worry about me calling in with a hangover!

I must tell you that I am seeking a long-term position, one that will allow me to perfect my skills and get really good at doing my job.

If you like my qualifications, please do not hesitate to contact me at the telephone number listed. I am available at your convenience!

Vinyl Floor Covering Requested: _____

This form is to acknowledge a request for vinyl floor covering in an area that is considered "non-standard" in the production process of your home.

Please be advised that due to the production process, it may be necessary to use vinyl tile bars in some areas of the home. If damage occurs in a given room during the production process, or needs to be replaced after your purchase, the vinyl floor covering will only be replaced in that particular room incorporating the use of a vinyl tile bar in the door way and quarter round molding around the perimeter of the room.

Creases, low and/or high spots, small areas of debris, and nail or staple heads may become visible in these rooms after shipment and will not be covered under the manufacturer's warranty.

Please sign and fax back to your sales representative for your home to be built as requested with linoleum through out or in non-standard areas. This document will serve as confirmation that you have read and understand this policy.

15 Ways to Get Your Kids to Eat Better

From Parents Magazine

Every single day...I deal with picky eaters both big and small. I'm the mother of 7-year-old triplets, all of whom have very different eating habits. I'm also a dietitian who treats the professional athletes at the Chicago Bulls and I also consult with the team to help improve their diets. Although it's tough to convince a towering basketball player or a 300-pound linebacker that junk food is bad for him, trying to get my kids to eat well can be even more of a challenge. My daughter Kathleen has severe and life-threatening allergies to eggs, peanuts, and tree nuts, and Julia will not eat fresh fruit back by my son Monty will try just about anything. My three wonderfully different children have me feeling guilty about their children's diets. They know how important it is to feed their kids healthy foods, but they're just not sure how to do it. Or what they need to know about nutrition. I had to go through some trial and error with my triplets. Here are the most important lessons I've learned, which should help you guide your kids to eat better.

Fun ideas that will keep your family active and entertained, start now >>

1. **Make a schedule.** Children need to eat every three hours, so I know them meals, two snacks, and lots of fluids. If you plan for these, your child's diet will be much more balanced and he'll be less cranky because he won't be famished. I put a basket in the car when I'm out with my kids and keep it stocked with carrots, pretzels, yogurt, and water so we don't have to rely on fast food.
2. **Plan dinners.** If thinking about a weekly menu is too daunting, start with two or three days at a time. A good dinner doesn't have to be fancy, but it should be balanced: whole-grain bread, rice, or pasta; a fruit or a vegetable; and a protein source like lean meat, cheese, or beans. I often make simple entree soups or Mexican chili ahead of time and then freeze it at dinnertime. I heat it up and add whole-grain bread and a bowl of cut-up apples or melon to round out the meal.
3. **Don't become a short-order cook.** A few years ago, I got into a bad habit. I'd make two suppers—one that I knew the kids would like and one for myself and me. It was exhausting. Now I prepare one meal for everybody and serve it family style so the kids can pick and choose what they want. Children often mimic their parents' behavior, so one of these days they'll eat a salad. Use food reserve them!
4. **Bite your tongue.** As hard as this may be, try not to comment on what or how much your kids are eating. Be as neutral as possible. Remember, you've done your job as a parent by serving balanced meals; your kids are responsible for eating them. If you say food is fun or encouraging things like "Eat your vegetables so your child will only resist.
5. **Introduce new foods slowly.** Children are new-food-phobic by nature—tell my kids that their taste buds sometimes have to get used to a flavor before they'll like the taste. A little bit of this can work wonders, too. Monty refused to eat cherry pears until I told him that Michael Jordan eats his to stay big and strong. Now Monty eats pears all the time.
6. **Dip it.** If your kids won't eat vegetables, experiment with dips. Kathleen tried her first vegetable when she was two—a thinly cut carrot with some ranch salad dressing. My children also like hummus, salsa, and yogurt-based dressing.

We begin our story in New York. There once was a girl known by everyone and no one. Her heart belonged to someone who couldn't stay. They loved each other recklessly. They paid the price. She danced to forget him. He drove past her street each night. She made friends and enemies. He only saw her in his dreams. Then one day he came back. Timing is a funny thing. But everyone was watching. She lost him but she found herself and somehow that was everything. [13]

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file; many other file types are supported

If you have any questions regarding Interpage's OutFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 9AM to 5:30 PM M-F Pacific Time
E-Mail: inm-support@interpage.net
Web: http://www.interpage.net

Thank you for your interest!

Note: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages, or any file where Text sample message will be transmitted. You may establish a trial account for evaluative purposes by filling out the form located at **http://www.interpage.net/inet-fax-trial.html**, providing any billing information and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is it an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a recipient of this test fax. A single destination may not receive more than two tests in a given week. However, if you feel that someone is sending you faxes in a continuous and abusive manner, please call us at (510) 315-2750 and we will block your fax number from the FreeFax service.

distributed for other than a pecuniary or specific bequest, and a Section 643(e)(3) election is made (see Key Issue 18C), its tax basis will be the fair market value at the date of distribution, which will carry over to the beneficiary. Thus, the beneficiary's tax basis is a fair market value for either pecuniary bequest funding or Section 643(e)(3) gain recognition.

Depreciated Property

If depreciated property is distributed (other than a specific or pecuniary bequest), no loss is recognized by the estate or trust due to the related party rules, and the beneficiary simply carries over the property's tax basis in the "hands" of the fiduciary. However, losses for pecuniary bequests can be recognized by estates. In that case, the beneficiary's tax basis would also be the fair market value of the property at the time of distribution.

Passive Activities

If passive activities are distributed upon an estate or trust's termination, the basis to the beneficiaries will be the fiduciary's tax basis plus any suspended passive activity loss attributable to each activity, as discussed in Key Issue 24E.

Preparation Pointer: The executor or trustee should provide beneficiaries with relevant tax basis information for all property distributions. If the estate is subject to the modified carryover basis rules (because the estate was created in 2010 and the executor elected to use the modified carryover basis rules instead of the federal estate tax rules), Schedule A of Form 8939 should have been provided to each recipient acquiring property, regardless of whether the executor allocated any basis increase to such property, within 30 days of filing Form 8939. (See Key Issue 5E for a discussion of the modified carryover basis rules and reporting requirements.)

rbon Dioxide (CO_2) is released when fossil fuels (e.g., coal, oil and natural gas) are burned. ften incr ases in greenhouse gas, is a major contributor to global warming.

rogen Oxides (NO_x) form when fossil fuels and biomass are burned at h gh temperatures ay contribute to acid rain and ground-level ozone (or smog) and may cause respiratory ess in children with frequent high level exposure. NOx also contribute to oxygen epletion of lakes and coastal waters which is destructive to fish and other animal life.

fur Dioxide (SO_2) is formed when fuel containing sulfur are burned, primarily coa and oil. Major health effects associated with SO_2 include asthma, respiratory illness and ggravation of existing cardiovascular disease. SO_2 combines with water and oxygen the atmosphere to form acid rain, which raises the acid level of lakes and streams, nd accelerates the decay of building materials and monuments.

- There is a large overhead from the number of bytes needed for the extension header and the primary encoding that is needed at the end of the datagram to round up to a four byte boundary (up to 3 bytes). For many applications this overhead is unacceptable.

- Use of the header extension limits applications to a single redundant encoding. Unless further extensions are introduced into the extension. This would result in further overhead.

For these reasons, the use of RTP header extension is held redundant audio encoding is disregarded.

The RTP profile for audio and video conferences [3] lists a set of payload types and provides for a dynamic range of payload types that may be defined through a conference control protocol. This leads to two possible schemes for accounting additional payload types for redundant audio applications:

1. A dynamic encoding scheme may be defined, for each combination of primary/redundant payload types during the RTP session payload type range.

2. A single fixed payload type may be defined to represent a packet with redundancy. The very beginning of the primary RTP payload type, or the payload type for that may be assigned dynamically.

It is possible to define a set of payload types that signify a particular combination of primary and secondary encodings for each of the 32 static payload types available. This would be a slightly restrictive yet feasible solution for packets with a single block of redundancy. As the number of possible combinations is quite large however, the need for multiple blocks of redundancy greatly increases the number of encoding combinations and makes this solution non-viable.

A modified version of the above solution could be to provide prior to the beginning of a conference on a per a 32 encoding combination that will be used for the duration of the conference. All users in the conference can be notified with the encoding mapping of encoding combinations. Communication of the encoding set could be made through the use of an external, out of band mechanism. Except to computations are very complex to be taken in exchange costs of a dynamic parameters. This scheme is more efficient as only one byte is used to identify encoding type in packets.

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *67 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reports* option to **Every Error** before attempting a test fax. This way, even if the send fails, an error code will be generated that will guide you in future fault isolation. This option is available in different places on different products - consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-866-hpfaxme** (1-866-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Fly your own VTOL?

It resembles an X-wing fighter out of *Star Wars*—but the futuristic, canard-winged craft at right is more than just a scriptwriter's fancy. For years aircraft makers have dreamed of a personal-use VTOL (vertical takeoff and landing) sports plane you could fly out of your own back yard.

Now a young Texas designer, Rod Clifton, has come up with a startling concept. It's a small, low-powered kit-built single-seater that takes off and lands like a helicopter, yet flies like a conventional airplane at up to 200 mph.

Called the Vulcan Starfire, it's shown here in model form. In the full-size prototype, two 60-hp Kawasaki motorcycle engines drive side-mounted lift fans for vertical maneuvering, and a ducted pusher prop provides forward thrust. Separate high- and low-speed controls provide full response both in normal flight and while hovering, when there's no airflow over the wings.

Louvered lift fans allow hovering, control roll at low speed; canard prevents stalls.

Kit price for the needle-nosed, all-composite Starfire will be around $10 000. Clifton's company, Dyna Con Tech (14810 Alkay, Houston, Tex. 77045), is already at work on a military version that could operate without airfields—but mum's still the word on that.

PLEASE, WORK...

[size]One of the most common complaints about newer versions of Windows is the slow copying speed especially when transferring lots of files over the network If you want to speed up your copying or if you regularly transfer large amounts of data a nd have to stop the process to perform some other disk-intensive task this program may be just what you need

TeraCopy is designed to copy and move files at the maximum possible speed It skips bad files during the copying process and then displays them at the end of the tra nsfer so that you can see which ones need attention TeraCopy can automatically che ck the copied files for errors by calculating their CRC checksum values It also pr ovides a lot more information about the files being copied than its Windows counter part TeraCopy integrates with Windows Explorer s right-click menu and can be set a s the default copy handler

Copy files faster
TeraCopy uses dynamically adjusted buffers to reduce the seek times Asynchronous c opying speeds up the file transfer between two physical hard drives

Pause and resume file transfer activities
Pause the copy process at any time in order to free up system resources and continue with a single click

Error recovery
In case of a copy error TeraCopy will try several times to recover and in the wor st case scenario will simply skip the file not terminating the entire transfer

Interactive file list
TeraCopy shows the failed file transfers and lets you fix the problem and recopy on ly the problem files

Shell integration
TeraCopy can completely replace the Explorer copy and move functions, in turn enabl ing you to work with files as usual
Full Unicode support
Windows 8 x64 support

TeraCopy Pro
The paid version of the program includes the following features
Copy/move to your favorite folders
Save reports as HTML and CSV files
Select files with the same extension/folder
Remove the selected files from the copy queue

Congratulations on your new window film! Here is some tips for taking care of your new investment.

1) *When cleaning your film, steer clear of ammonia based products(Windex, Mr. Clean etc.). These products have a chemical reaction with the window film breaks down the clear scratch resistant coating causing it to flake and delaminate*
2) *Do not roll your windows down for two days. The seals are tight, and the window film has not set to your glass. Rolling down your windows runs the risk of your film rolling up on you.*
3) *If you see any bubbling or haziness in your film that is normal. We use a water based solution to apply the film to your glass, so just give it 1-2 weeks for the water to fully evaporate out. But, if you see any bubbling or haziness after the stated time feel free to come back to have us look at it for you*
4) *Please do not use any abrasive items on your film (scratchy pad, steel wool, etc.). It will cause scratches in on the surface the film.*

Getting your car inspected for windshield tint purchasers.

1) When you get your vehicle inspected, inform the inspectioners that your front windshield is tinted with a clear UV resistent film and to not use a razor blade upon the film
2) Included in the envelope provided, there is a sample of the static cling that can be used to apply your inspection sticker safely to your windshield film without damaging it.
3) If your inspection facilty does not allow you to apply your inspection sticker with the static cling as soon as your are finished there, head on over to Far Beyond Tint, and we will remove the inspection sticker and apply the new sticker free of charge **Remember, the sooner the better.**

or do some other active thing so that you buy something, download something or sign up for something today. The advertiser counts the direct responses to the ad and measures the effectiveness of the ad by those responses.

What **branding advertisers** came to feel about banner ads is that banner ads are not the most effective vehicle for branding. Relative to a magazine ad or a TV ad, banner ads are small and easily ignored.

What **direct sales advertisers** came to feel about banner ads is that the response rate for banner ads is low. For most banner ads, the industry average seems to hover between two and five clicks per 1,000 impressions of the ad. That is, if a banner ad appears on 1,000 Web pages, between two and five people will click on the ad to learn more.

Those five clicks per thousand impressions don't have much value to most advertisers. The reason is because those five clicks will not all generate sales. Out of 100 clicks, perhaps one person will actually do the desired thing (buy something, download something, etc.).

An Example

Here's an example. Let's say that a publisher wants people to buy a book and hopes to increase sales of the book through advertising. The publisher has budgeted .60 per copy of the book to spend on advertising. If the publisher is paying per 1,000 impressions for banner ads and purchases 100,000 impressions for .000, here is what happens:

- The banner ad appears 100,000 times.
- Let's say the response rate is five clicks per 1,000 impressions, so 500 people click on the ad during the time the 100,000 total impressions are running.
- If two percent of those 500 people actually purchase the book, that results in 10 purchases.
- The publisher had to pay (,000/10) 0 for each book purchased through that ad.

Obviously, paying 0 to sell one book is not a good economic model for a publisher, especially since the budget is .00 per book. For this type of advertising to work for the publisher, the publisher would need to pay 30 cents per 1,000 impressions, rather than 30 dollars.

The Result

So banner ad rates began to decline. Today, if you shop around, you can buy banner ads from thousands of Web sites or brokers for 50 cents or so per thousand impressions -- which is pretty much exactly what they are worth to a person who is trying to sell something with banner ads using a direct sales model.

It is possible for some Web sites to charge more than 50 cents per 1,000 impressions. For example, the top 20 or so Web sites can charge a premium because of their size. There is also a process called re-targeting. For example, if you want to sell a GPS, you can advertise on the HowStuffWorks GPS article and get a **targeted audience** for your ad, which will typically increase the click-through and response rate for the ad. Yet so far many search engines target their banner ads to the search words people type in, and they charge more for these targeted ads. But for most other Web sites, there is very little money to be made from banner ads.

In order to charge more than 50 cents per thousand impressions, Web sites have to offer ads that either:

- Have a lot more branding power
- Get a much higher click-through rate

SOHO TZW Firmware Reset Procedures

Prepared by SonicWALL, Inc.
10/10/2003

SonicWALL introduced a new reset feature in SonicOS 1.0.0.2 for the SonicWALL SOHO TZW Wireless Security Appliance. The new feature allows you to reset the SOHO TZW to factory default settings including the user name and password, but ***does not require reloading the firmware***.

This new feature is in addition to the earlier reset features of SonicWALL products, all of which are described in the following sections.

Resetting Firmware to Factory Default Settings (New SOHO TZW Feature)

At times, it may be necessary to reset the firmware to factory defaults on your SOHO TZW. For example, if you forget your password and cannot access the management interface.

To quickly reset the firmware to factory default settings, locate the Reset button on the back of the SOHO TZW next to the LAN connection. Using a pointed object, press and hold the Reset button for 5-10 seconds. All settings are returned to the factory default settings, including the password and the default LAN IP address of 192.168.168.168.

Tip: *If you have a saved preferences file, you can import it for quick recovery of your configurations. Importing a preferences file will not overwrite the username and password.*

Resetting Firmware if Firmware is Corrupted (Test Light Remains On)

If the Test light remains on after 90 seconds, the firmware may be corrupted. Follow these steps to load firmware onto the appliance:

1. Power down the appliance. Disconnect LAN and WAN ports.
2. Wait 30 seconds, press and hold the Reset button.
3. While holding the reset button, power on the appliance.
4. Continue to hold the Reset button until the Test light begins blinking.
5. Once the Test Light stops blinking and remains lit, release the Reset button.
6. Reconnect to LAN port directly from host PC with cross-over cable (red cable that came with the SonicWALL) and reconnect WAN port. Configure the host Ethernet adapter settings to IP address 192.168.168.200 and mask 255.255.255.0.
7. Open a Web browser and type 192.168.168.168 into the Address or Location field.
8. A Web page displays the message: "Firmware appears to be corrupted." Click Browse to open a File Open dialogue box. Browse to the location of the firmware file. A rescue version of the firmware is located on the product CD.
9. After restoring the firmware on the appliance, go to https://www.mysonicwall.com and log into your account. Download the latest version of the firmware and then upload it to your appliance.

Tip: *If you have a saved preferences file, you can import it for quick recovery of your configurations. Importing a preferences file will not overwrite the username and password.*

Restore Defaults (from System>Settings page)

You can restore the SonicWALL to default settings by clicking "**Restore Defaults**" on the System>Settings page. This resets all configuration settings **except** the administrator name and password, and the LAN IP address and subnet mask.

Alert! *It's recommended you export your current configuration to a file before choosing Restore Defaults.*

Hepatitis B
Fact Sheet

www.cdc.gov/hepatitis
1-888-4HEP-CDC

SIGNS & SYMPTOMS	▪ jaundice ▪ fatigue ▪ abdominal pain ▪ loss of appetite ▪ nausea, vomiting ▪ joint pain About 30% of persons have no sign or symptoms. Signs and symptoms are less common in children than adults.
CAUSE	Hepatitis B Virus (HBV)
LONG-TERM EFFECTS WITHOUT VACCINATION	Chronic infection occurs in: ▪ 90% of infants infected at birth ▪ 30% of children infected at age 1 – 5 years ▪ 6% of persons infected after age 5 years Death from chronic liver disease occurs in: ▪ 15 – 25% of chronically infected persons
TRANSMISSION	▪ Occurs when blood or body fluids from an infected person enters the body of a person who is not immune ▪ HBV is spread through having sex with an infected person without using a condom; sharing needles or "works" when "shooting" drugs; through needlesticks or sharps exposures on the job; or from an infected mother to her baby during birth. Persons at risk for HBV infection might also be at risk for infection with hepatitis C virus (HCV) or HIV
RISK GROUPS	▪ Persons with multiple sex partners or diagnosis of a sexually transmitted disease ▪ Men who have sex with men ▪ Sex contacts of infected persons ▪ Injection drug users ▪ Household contacts of chronically infected persons ▪ Infants born to infected mothers ▪ Infants/children of immigrants from areas with high rates of HBV infection ▪ Health care and public safety workers ▪ Hemodialysis patients
PREVENTION	▪ Hepatitis B vaccine is the best protection. ▪ If you are having sex, but not with one steady partner, use latex condoms* correctly and every time you have sex. ▪ If you are pregnant, you should get a blood test for hepatitis B. Infants born to HBV-infected mothers should be given H-BIG (hepatitis B immune globulin) and vaccine within 12 hours after birth. ▪ Do not shoot drugs. If you shoot drugs, stop and get into a treatment program. If you can't stop, never share needles, syringes, water, or "works," and get vaccinated against hepatitis A and B. ▪ Do not share personal care items that might have blood on them (razors, toothbrushes). ▪ Consider the risks if you are thinking about getting a tattoo or body piercing. You might get infected if the tools have someone else's blood on them or if the artist or piercer does not follow good health practices. ▪ If you have or had hepatitis B, do not donate blood, organs, or tissue. ▪ If you are a health care or public safety worker, get vaccinated against hepatitis B, and always follow routine barrier precautions and safely handle needles and other sharps.

Community Hospital of Bremen
OUR FAMILY CARING FOR YOURS

MyChart Patient Portal Disclosure

Disclosure Statement

The Community Hospital of Bremen is offering access to *MyChart* patient portal as a courtesy to our patients. This web-based patient portal is a secure tool that provides patients the ability to access portions of their medical records. This form is intended to inform you of the facts and risks surrounding the use of a web portal. The *MyChart* patient portal is NOT a replacement for in person health care. It is not appropriate to use this portal for emergency diagnosis or treatment.

By completing the registration form, I understand that the listed email address will be used to logon to *MyChart* Patient Portal from the Community Hospital of Bremen and that anyone who has access to this email account may potentially receive access to my health records. I also understand that, once my health information has been uploaded to my Portal account, it is my responsibility to keep it confidential. The use of a **personal email address is highly recommended and preferred**.

The Community Hospital of Bremen Policy and Procedures regarding the Patient Portal

1. Patients may have electronic access to certain parts of their health information, such as medical history med cations, and lab results, through a secure web link. Certain results of sensitive nature may not be viewable in the portal.
2. Patient enrollment can be made by completing the *MyChart* Patient Registration Form. Patient's must also show a valid ID or know their medical record number (your medical record number is located on your discharge paperwork) to enroll. **You must have a working email to use the Patient Portal.**
3. Parents and legal guardians may be granted proxy access to their minor child's portal account up to 18 years of age. Proof of guardianship such as birth certificate must be shown. Parents or legal guardians MUST show a valid ID in conjunction with proof of guardianship and completed *MyChart* Patient Portal Registration Form.
4. Adult patients may designate another adult to have access their portal account as a proxy by completing the Granting Proxy Access portion on the *MyChart* Patient Portal Registration Form.
5. Patients may revoke proxy access by completing and signing the *MyChart* Patient Portal Registration Form and bringing it to the Health Information Department.

Responsibilities of Patient Portal Users

1. Every authorized *MyChart* portal user has responsibility to protect the confidentiality of health records.
2. All authorized *MyChart* portal users are expected to keep their portal logon ID and password secure to prevent any unauthorized access to patient information. The Community Hospital of Bremen is not liable for breaches of confidentiality arising from unauthorized use of such information. If you suspect that someone has learned your password, you should access the portal site immediately and change your password.
3. Should you, for whatever reason, gain access to another person's health records, you agree not read such information and to report the problem immediately to the Health Information Department at the Community Hospital of Bremen at (574) 546-2211.

Déclaration de garantie limitée de l'imprimante HP

Produit HP	Période de garantie limitée
Imprimante HP	90 jours
Cartouches d'encre	Jusqu'à épuisement de l'encre HP ou jusqu'à la date de fin de garantie imprimée sur la cartouche, selon la première éventualité. Cette garantie ne couvre pas les encres reconditionnées, remises à neuf, utilisées de manière impropre ou frauduleuse, ou encore les cartouches ayant déjà été ouvertes ou remplies.
Têtes d'impression (TI)	1 an

A. Étendue de la garantie limitée

1. Hewlett-Packard garantit au client utilisateur final que les produits HP spécifiés ci-dessus sont exempts de défauts de matériaux et de fabrication pendant la durée spécifiée ci-dessus, à compter de la date d'achat par le client. Le client doit fournir la preuve de la date d'achat. HP se réserve le droit de demander aux clients de fournir une preuve d'achat et de remplir tout formulaire standard lors de la réclamation de la garantie.

2. HP garantit au client utilisateur final que les cartouches HP spécifiées ci-dessus sont exemptes de défauts de matériaux et de fabrication pendant la durée spécifiée ci-dessus, à compter de la date d'installation de la cartouche. Cette garantie ne couvre pas les cartouches HP déjà remplies, reconditionnées, remises à neuf, utilisées de manière impropre ou frauduleuse, ou encore les cartouches ayant déjà été ouvertes ou remplies. Cette garantie ne couvre pas non plus les produits présentant des problèmes d'encre résultant de l'utilisation de cartouches d'encre non HP ou de cartouches d'encre périmées.

3. Pour les logiciels, la garantie limitée HP ne s'applique qu'en cas d'incapacité d'exécution des instructions de programmation. HP ne garantit pas que le fonctionnement des produits sera ininterrompu ou sans erreur.

4. La garantie limitée HP ne couvre que les défauts apparaissant lors de l'utilisation normale du produit, et ne couvre pas les autres problèmes, y compris ceux résultant d'une :

   a. mauvaise maintenance ou modification ;

   b. utilisation de logiciels, supports, pièces ou consommables non fournis par HP ou ne répondant pas aux spécifications de l'imprimante ;

   c. utilisation non conforme aux spécifications de l'imprimante ;

   d. modification ou utilisation non autorisée.

5. Pour les imprimantes HP, l'utilisation d'une cartouche non HP ou d'une cartouche rechargée n'affecte ni la garantie au client ni tout contrat de support HP conclu avec le client. Toutefois, si la défaillance ou le dommage de l'imprimante est imputable à l'utilisation d'une cartouche spécifique, HP facturera ses services de main-d'œuvre et de déplacement pour la défaillance ou le dommage en question.

6. Si HP est informé, durant la période de garantie applicable, d'un défaut couvert par la présente garantie concernant un produit, HP choisira soit de réparer le produit, soit de le remplacer. Si HP est dans l'impossibilité de réparer ou de remplacer le produit défectueux, HP remboursera le prix d'achat du produit, dans un délai raisonnable après avoir été informé du défaut.

7. HP est exempt de toute obligation de réparation, de remplacement ou de remboursement en cas de non-fonctionnement du produit par le client dans un délai raisonnable.

8. Le produit de remplacement peut être neuf ou équivalent au neuf, à condition que ses fonctionnalités soient au moins équivalentes à celles du produit remplacé.

9. Les produits HP peuvent contenir des pièces, composants ou matériaux reconditionnés équivalents à des pièces neuves pour le plan de performance.

10. Les garanties HP spécifiques sont applicables dans tous les pays/régions où les produits HP concernés sont distribués par HP. Des contrats garantissant des services supplémentaires, tels que la maintenance sur site, sont disponibles auprès de tous les centres de service HP agréés dans les pays/régions où le produit est distribué par HP ou par un importateur agréé.

B. Restrictions de la garantie

1. DANS LA MESURE OU LES LOIS LOCALES LE PERMETTENT, HP OU SES FOURNISSEURS TIERS NE FONT AUCUNE AUTRE GARANTIE OU CONDITION D'AUCUNE SORTE, EXPRESSE OU IMPLICITE, EN CE QUI CONCERNE LES PRODUITS HP ET NIENT TOUTE GARANTIE IMPLICITE DE QUALITÉ MARCHANDE, DE QUALITÉ SATISFAISANTE, D'APTITUDE À UN USAGE PARTICULIER ET DE RESPECT DES LOIS.

C. Restrictions de responsabilité

1. DANS LA MESURE OU LES LOIS LOCALES LE PERMETTENT, EXCEPTION FAITE DES OBLIGATIONS SPÉCIFIQUEMENT ÉNONCÉES DANS LA PRÉSENTE DÉCLARATION DE GARANTIE, HP DÉCLINE TOUTE RESPONSABILITÉ VIS-À-VIS DES DOMMAGES DIRECTS, INDIRECTS, SPÉCIAUX OU ACCESSOIRES, QUE LA DEMANDE EN SOIT FAITE SUR LA BASE DU CONTRAT, DE LA GARANTIE, DU DÉLIT OU AUTRE, ET QUE HP AIT OU NON ÉTÉ INFORMÉ DE LA POSSIBILITÉ DE TELS DOMMAGES.

D. Lois locales

1. Cette déclaration de garantie donne au client des droits particuliers spécifiques. Le client peut également posséder d'autres droits selon les états, les provinces ou les pays/régions des États-Unis, du Canada, et du reste du monde. Les pays/régions de la liste ci-dessous sont régis par les dispositions spécifiques suivantes :

   a. Australie et Nouvelle-Zélande : Les produits HP fournissent des garanties qui ne peuvent être exclues en vertu de la législation australienne sur la consommation. Les clients australiens et néo-zélandais bénéficient en outre de la garantie légale pendant trois ans. Pour en savoir plus sur la garantie légale, les clients australiens peuvent s'adresser à un centre de service agréé, appeler le service clientèle de HP au 13 47 62 ou se rendre à l'adresse http://www.hp.com/support/au. The Pretzel Hold

Our story begins at the Olympics, specifically the wrestling event. It is narrowed down to the Russian or the American for the gold medal. Before the final match, the American wrestler's trainer came to him and said, "Now don't forget all the research we've done on this Russian. He's never lost a match because of this "pretzel" hold he has. Whatever you do, don't let him get you in this hold! If he does, you're finished!"

The wrestler nodded in agreement. Now, to the match. The American and the Russian circled each other several times looking for an opening. All of a sudden the Russian lunged forward, grabbing the American and wrapping him up in the dreaded pretzel hold!

A sigh of disappointment went up from the crowd, and the trainer buried his face in his hands for he knew all was lost. He couldn't watch the ending.

Suddenly there was a horrible scream, and a resounding cheer from the crowd. The trainer raised his eye just in time to see the Russian flying up in the air. The Russian's back hit the mat with a thud, and the American weakly collapsed on top of him, getting the pin and winning the match.

The trainer was astounded! When he finally got the American wrestler alone, he asks, "How did you ever get out of that hold? No one has ever done it before!"

The wrestler answered, "Well, I was ready to give up when he got me in that hold, but at the last moment, I opened my eyes and saw this pair of balls right in front of my face. I thought I had nothing to lose, so with my last ounce of strength I stretched out my neck and bit those babies just as hard as I could. You'd be amazed how strong you get when you bite your own balls!"

CIVIL CODE SECTION 2981-2984.6

2981 As used in this chapter, unless the context otherwise requires:

(a) "Conditional sale contract" means:

(1) A contract for the sale of a motor vehicle between a buyer and a seller, with or without accessories, under which possession is delivered to the buyer and either of the following:

(A) The title vests in the buyer thereafter only upon the payment of all or a part of the price or the performance of any other condition.

(B) A lien on the property is to vest in the seller as security for the payment of part or all of the price or for the performance of any other condition.

(2) A contract for the bailment of a motor vehicle between a buyer and a seller, with or without accessories, by which the bailee at lease agrees to pay as compensation for use a sum substantially equivalent to or in excess of the aggregate value of the vehicle and its accessories, if any, at the time the contract is executed, and by which it is agreed that the bailee at lease will become or for no other or for a nominal consideration has the option of becoming the owner of the vehicle upon full compliance with the terms of the contract.

(b) "Seller" means a person engaged in the business of selling or leasing motor vehicles under conditional sale contracts.

(c) "Buyer" means the person who buys or hires a motor vehicle under a conditional sale contract.

(d) "Person" includes an individual, company, firm, association, partnership, trust, corporation, limited liability company, or other legal entity.

(e) "Cash price" means the amount for which the seller would sell and transfer to the buyer unqualified title to the motor vehicle described in the conditional sale contract, if the property were sold for cash at the seller's place of business on the date the contract is executed, and shall include taxes to the extent imposed on the cash sale and the cash price of accessories or services related to the sale, including, but not limited to, delivery, installation, alterations, modifications, improvements, document preparation fees, service contracts, and vehicle protection product cancellation option agreements, and payment of a prior credit or lease balance remaining on property being traded in.

(f) "Downpayment" means a payment that the buyer pays or agrees to pay to the seller in cash or property, value or money's worth, at or before delivery by the seller to the buyer of the motor vehicle described in the conditional sale contract. The term shall also include the amount of any portion of the downpayment the payment of which is deferred until not later than the due date of the second otherwise scheduled payment, if the amount of the deferred downpayment is not subject to a finance charge. The term does not include any administrative finance charge charged, received, or collected by the seller as provided in this chapter.

(g) "Amount financed" means the amount required to be disclosed pursuant to paragraph (8) of subdivision (a) of Section 2982.

(h) "Unpaid balance" means the difference between subdivision (e) and subdivision (f), plus all insurance premiums (except for credit

pine toilet cleaner

Kills bacteria Performance tested by an independent laboratory

Tesco pine toilet cleaner. Safe to use with septic tanks.
Directions for use To remove cap. Place bottle on a firm flat surface. Squeeze lid up, no cap and turn anti-clockwise. Direct the flair around the toilet bowl. Leave to act until in an upright position. For best results leave overnight before flushing away. **To replace cap.** Place bottle on a firm flat surface. Replace cap and turn clockwise until a click is heard. Check the cap is closed. **Store in a cool, dry place out of reach of children.** Warning: Do not allow to come into contact with anything other than the toilet bowl. Use only in the toilet bowl. Wipe up any accidental spillage immediately. Wash hands in clean water after use. Harmful to aquatic life with long lasting effects. If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Avoid release to the environment. Dispose of contents/container in accordance with local requirements. See waste disposal.

Dear Fonality Customer

Thank you for your PBXtra™ purchase!

It is very important that you follow all instructions in the PBXtra Installation Guide that shipped with your PBXtra. Any missed steps may result in poor performance. To maximize your satisfaction with the PBXtra product, our Support team should have scheduled a telephone meeting between one of our installation specialists and you. If Support has not contacted you for an installation follow-up appointment, please send an email to support@fonality.com titled "Installation Follow-Up Appointment" and we will place you on our appointment schedule.

After initial installation, if you have purchased an **Annual Software Maintenance and Support Agreement**, Fonality will provide you unlimited email and phone support. Your fastest method of obtaining support is by sending an email to support@fonality.com. This will automatically create a ticket in our support system—please list only one incident per email.

Useful information

- Admin username for your PBXtra: admin20850
- Admin password for your PBXtra: Yy1+2@qD
- Dial x8555 to retrieve voicemails from your extension
- Dial x8500 to retrieve voicemails from any extension
- Users must always dial "9" to reach an outside line
- Users must dial "9" + (7 digit number) for local numbers
- Users must dial "9" + 1 + (area code + number) for long distance

Please note

- Do not change ANY existing extension numbers. Coordinate these changes with Fonality by sending an email to support@fonality.com
- Polycom phones display this message when starting up: "Could not contact boot server using existing configuration". This message is normal and may be safely ignored.

At Fonality, customer feedback actually drives our software development progress. So, if you have an idea on how we can improve our service, please submit it to suggestions@fonality.com.

Thank you for your business.

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of interpage's subscription fax service(s).

If you receive the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this test fax transmission result.

This file is a sample MS Word file; many other file types are supported

If you have any questions regarding Interpage's ClariFax(sm) Service, including the FaxUnlimited(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 9AM to 5:30 PM M-F Pacific Time

E-Mail: fax-support@interpage.net

Web: http://www.interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized text messages, only a standard test message will be transmitted. You may establish a free account for evaluation purposes by filling out the form located at http://www.interpage.net/cgi-bin/fax_initial, inserting any 4 digit pin number, and clearly indicating a valid e-mail address and at least telephone number. Please call (510) 315-2750 for additional details.

3. This fax is not a solicitation nor is it an offer. If you sent by e-mail or to Interpage's web site who entered your e-mail as an author and recipient of this test fax, Interpage's policy is that you will not receive more than two faxes. If a given unique 'username' or 'pin' subsequently attempts to send faxes in a servicious and abusive manner, please call us at (510) 315-2750 and we will block your fax privileges from the FreeFax service.

FP-C® / CCP-C® CE Renewal Guidelines

Below are guidelines for currently certified FP-C® / CCP-C® individuals wishing to renew with continuing education hours.

General Guidelines

- Continuing Education (CE) should have a clear and direct application to the practice of flight and critical care medicine
- A minimum of 100 contact hours must be submitted: 75 of the contact hours must be in the CLINICAL category. 16 CLINICAL hours must be from an approved FP-C® / CCP-C® prep class. 25 CE's may be in the OTHER category to complete the 100 hours. It is acceptable to have more than 75 of the contact hours in the CLINICAL category
- For CE to be applicable for renewal it must have occurred during the four-year period of certification. For example: if the certification expires March 31, 2012, the four year period of certification is from April 1, 2012 until March 31, 2016
- It is recommended that CE logs and supporting documents be sent to the BCCTPC® office at least three months and no more than six months prior to certification expiration (late fees may apply)
- Renewal requests that are submitted to BCCTPC® beyond the certification expiration date will not be accepted.
- FP-C® / CCP-C® Renewal requests are processed according to when they are received by the BCCTPC® and the certification expiration date
- Candidates who successfully meet all program requirements will have their FP-C® / CCP-C® credential renewed for the following four years. Candidates who do not meet the FP-C® / CCP-C® renewal program requirements must register and pass the FP-C® / CCP-C® exam to maintain their credential
- It is the responsibility of the candidate to identify the number of CLINICAL and OTHER hours of CE activities using the following FP-C® / CCP-C® renewal guidelines. BCCTPC® will make the final determination as to category and acceptability of submissions.
- The BCCTPC® will perform 100% audit of CE's as each candidate must submit a copy of all CE with the Verification Log.
- All FP-C® / CCP-C® renewal fees are nonrefundable.

Eligibility Requirements

- Currently a FP-C® and/or CCP-C®
- Current unrestricted paramedic license in the state or country of practice. Any restrictions must be reported to the BCCTPC® office.
- Meet the requirements of completing 100 contact hours of CE

Application Procedure

To renew using FP-C® / CCP-C® renewal by CE, the following needs to be submitted 3-6 months prior to your FP-C® / CCP-C® expiration date:

- FP-C® / CCP-C® Renewal fee ($125 late fee applies to all renewals received less than 45 days from expiration date)

Waiver of 60-Day Rollover Requirement

Rev Proc. 2016-47

SECTION 1 PURPOSE

This revenue procedure provides guidance concerning waivers of the 60-day rollover requirement contained in §§ 402(c)(3) and 408(d)(3) of the Internal Revenue Code ("Code"). Specifically, it provides for a self-certification procedure (subject to verification on audit) that may be used by a taxpayer claiming eligibility for a waiver under §§ 402(c)(3)(B) or 408(d)(3)(I) with respect to a rollover into a plan or individual retirement arrangement ("IRA"). It provides that a plan administrator or an IRA trustee, custodian or issuer ("IRA trustee") may rely on the certification in accepting and reporting receipt of a rollover contribution. It also modifies Rev. Proc. 2003-16, 2003-4 I.R.B. 359, by providing that the Internal Revenue Service may grant a waiver during an examination of the taxpayer's income tax return. An appendix contains a model letter that may be used for self-certification.

SECTION 2 BACKGROUND

.01 Sections 402(c)(3) and 408(d)(3) provide that any amount distributed from a qualified plan or IRA will be excluded from income if it is transferred to an eligible retirement plan no later than the 60th day following the day of receipt. A similar rule applies to § 403(a) annuity plans, § 403(b) tax-sheltered annuities, and § 457 eligible governmental plans. See §§ 403(a)(4)(B), 403(b)(8)(B), and 457(e)(16)(B).

.02 Section 401(a)(31) requires that a plan qualified under § 401(a) provide for the direct transfer of eligible rollover distributions. A similar rule applies to § 403(a) annuity plans, § 403(b) tax-sheltered annuities, and § 457 eligible governmental plans. See §§ 403(a)(1), 403(b)(10), and 457(d)(1)(C). Section 1.401(a)(31)-1, Q&A-14, provides examples of situations in which a plan administrator may reasonably conclude that a contribution, whether made via a direct transfer or a 60-day rollover, is a valid rollover contribution to a § 401(a) or 403(a) plan. Several of the examples illustrate circumstances under which a plan administrator may rely on certain certifications and documentation that a rollover contribution that is not a direct transfer is being made no later than 60 days following receipt.

.03 An IRA trustee reports a rollover contribution received during a year on a Form 5498, *IRA Contribution Information*, for that year.

.04 Sections 402(c)(3)(B) and 408(d)(3)(I) provide that the Secretary may waive the 60-day rollover requirement "where the failure to waive such requirement would be against equity or good conscience, including casualty, disaster, or other events beyond the reasonable control of the individual subject to such requirement."

.05 Under §§ 7508 and 7508A, the time for making a rollover may be postponed in

Spanish 3 Take Home Midterm Essay

Choose one to do in Spanish. Write your essay using the lines below or on a separate piece of paper with your name on it. Must be at least 7 complete sentences. Must be handed in on the day of the Midterm exam or earlier.

1. Write an essay about yourself for the class yearbook. Be sure to include a description of yourself, what you used to do as a child, and the activities you enjoy now. Tell about some of the things you did last year and express some of your hopes and wishes for this year.
2. Felipe felt bored and lonely last year. Now he is starting high school and he wants to be more active than he was in junior high. He has started thinking about what activities he might participate in. Write a letter from Felipe to his friend Marcos, who is a junior in high school, telling him about past experiences at school and asking for advice about how to make his freshman year a good one.
3. Imagine you are interviewing a famous high school athlete. Ask the athlete for advice about how to do well in sports. Write questions about the athlete's plans for the future and be sure to include the athlete's responses.

HI Fred,

Here is the offer as promised. You will see the Oil Tank condition I hope the wording is acceptable to your seller I think it protects him as well as my buyers should there be contamination in the soil.

I spoke to Rick at Victoria Tank and he will do his best to sweep the property tomorrow...but it may be Monday, so with any luck this clause will be removed early next week.

The closing dates are one day after the close of their house in Burnaby.

They would appreciate it if the lock box can be left on as they may want to go over with me to measure windows etc. between now and closing.

My clients have agreed to negotiate any changes to the contract verbally and then if both sides can agree, signatures and initials can be executed.

Please call me if you have any questions.

Thank you

Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

Call the IRS at 1-800-908-4490 if you think your identity has been used inappropriately for tax purposes.

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or email in personal property to the Treasury Inspector General for Tax Administration at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at spam@uce.gov or contact them at www.ftc.gov/idtheft or 1-877-IDTHEFT(438-4338).

Visit the IRS website at www.irs.gov to learn more about identity theft and how to reduce your risk.

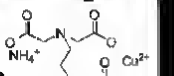
Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons who must file information returns with the IRS to report interest, dividends, and certain other income paid to you, mortgage interest you paid, the acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA, or Archer MSA or HSA. The IRS uses the numbers for identification purposes and to help verify the accuracy of your tax return. The IRS may also provide this information to the Department of Justice for civil and criminal litigation, and to cities, states the District of Columbia, and U.S. possessions to carry out their tax laws. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

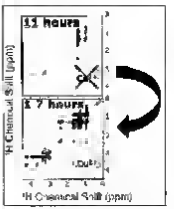
You must provide your TIN whether or not you are required to file a tax return. Payers must generally withhold 28% of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to a payer. Certain penalties may also apply.

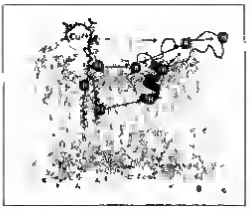
New Copper-Chelated Lipid

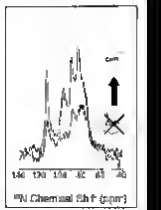
Use of a Copper-Chelated Lipid Speeds Up NMR Measurements from Membrane Proteins



14:0 PE-DTPA (Cu)
Avanti Number 791225







Avanti thanks Kazutoshi Yama saki and Ayyalusamy Ra manoorthy for their generous help in supplying the above figures

Recent studies have demonstrated the abilities of solid state NMR techniques to solve atomic-level-resolution structures and dynamics of membrane-associated proteins and peptides. However high throughput applications of solid-state NMR spectroscopy are hampered by long acquisition times due to the low sensitivity of the technique. In this study we demonstrate the use of a paramagnetic copper-chelated lipid to enhance the ^{1}H T_1-lattice relaxation and thereby speed up solid state NMR measurements. Fluid lamellar-phase bilayer cells composed of a lipid, detergent, and the copper chelated lipid and containing a uniformly (15)N labeled antimicrobial peptide, subtilosin A, were used at room temperature. The use of a chelating lipid reduces the concentration of free copper and limits RF-induced heating, a major problem for fluid samples. Our results demonstrate a 6.2-fold speed increase and a 2.7-fold improvement in signal-to-noise ratio for solid state NMR experiments under magic-angle spinning and static conditions, respectively. Furthermore, solid-state NMR measurements are shown to be feasible even for nanomolar concentrations of a membrane-associated peptide.

So you want to test your fax software or fax machine, but you don't have a fax number that you can test with. Here's a list of free fax numbers that are setup specifically for testing your fax machine within the USA or Canada.

These fax numbers will work on any fax machine or any type of fax software including FaxTalk.

Testing fax sending only

A web-based fax toy does not have a fax # that will allow you to send a fax test. So dial fax test free +1 888 877 1655 or +1 503 200 1300 (Portland, Oregon) toll

NOTE: Faxes sent to this number are publicly displayed for all to see on the Web site faxtoy.com. Do not fax any sensitive, confidential or offensive material.

Verifying your fax was received successfully

Visit the Web site faxtoy.com and view the thumbnail fax. Click the thumbnail to view a full image of the fax. If you do not see your fax, use the browser refresh option to update the page. Your test fax should appear within a few minutes after a successful send.

Testing send and receive functions of your fax

Hewlett Packard (HP) provides a free fax testing service that can test both sending and receiving functions of your fax software or fax machine.

Send a fax to +1-888 473-4723 (Toll Free in the USA and Canada)

Receiving a fax – To ensure you can receive a fax, once you successfully send a fax to this service it will automatically E-mail you back within a few minutes (usually

OLD CITY BAR

In an old city bar
That is never too far
From the places that gather
The dreams that have been

In the safety of night
With its old neon light
It beckons to strangers
And they always come in

And the snow it was falling
The neon was calling
The music was low
And the night
Christmas Eve

And here was the danger
That even with strangers
Inside of this night
It's easier to believe

Then the door opened wide
And a child came inside
That no one in the bar
Had seen there before

And he asked and we knew
That outside in the snow
That someone was lost
Standing outside our door

Then the bartender gazed
Through the smoke and the haze
Through the window and ice
To a corner streetlight

Where standing alone
By a broken pay phone
Was a girl the child said
Could no longer get home

And the snow it was falling
The neon was calling
The bartender turned
And said not that I care
But how would you know this?
The child said I've relocated
If one could be home
They'd be all ready there

Then the bartender came out
From behind the bar
And in all of his life he was
never that far
And he did something else
That he thought no one saw
When he took all the cash
from the register drawr

Then he followed the child to
the girl cross the street
And we watched from the bar
as they started to speak
Then he called for a cab and
he said J F K
Put the girl in the cab and the
cab drove away
And we saw in his hand
That the cash was all gone
From the light that she had
wished upon

If you want to arrange it
This world you can change it
If we could somehow
make this Christmas thing
last

By helping a neighbor
Or even a stranger
And to know who needs help
You need only just ask

Then he looked for the child
But the child wasn't there
Just the wind and the snow
Waltzing dreams through the
air

So he walked back inside
Somehow different I think
For the rest of the night
No one paid for a drink

And the cynics will say
That same neighborhood kid
Wandered in on some scams
In the world where they hid

But they weren't there
So they couldn't see
By an old neon star
On that, night, Christmas Eve

When the snow it was falling
The neon was calling
And in case you should
wander
In case you should care

Why we're on our own
Never went home
On that night of all nights

We were already there

Then all at once inside that night
He saw it all so clear
The answer that he sought so long
Had always been so near

It's every gift that someone gives
Expecting nothing back
It's every kindness that we do
Each simple little act

Make Perfect McDonald's French Fries at Home!

750,264 views SHARE

Cooking with Shotgun Red SUBSCRIBE 35K

Recipe: Start with 4 or 5 long potatoes

Cut of the ends and cut off the sides to make the potatoes square but long. Cut the potato in slices about 1/8 inch thick then lay those slices flat and cut strips the same thickness so your fries are the same size as McDonald's.

Soak in cold water for 5 minutes then drain on a paper towel

In a pot put enough water to cover the fries when laid out in a big flat dish. Stir in corn syrup and sugar as the water comes to a boil. I used 1/2 cup corn syrup and 1/2 cup white sugar for 12 cups of water. (adjust accordingly) Once the sugar is dissolved and the water reaches a boil "turn off the heat" and drop in the fries. Let them sueik for 10 minutes then drain on paper towels

Cranberry Salad

Recipe courtesy Paula Deen

Prep Time:	10 min	**Level:**	**Serves:**
Inactive Prep Time:	4 hr 0 min	Easy	8 servings
Cook Time:	3 min		

4-ounce can crushed pineapple

3-ounce package black cherry gelatin

8 ounces dried cranberries, rinsed

1 cup broken pecans

1/2 cup sugar

Parsley, for garnish

Sour cream or whipped cream, for garnish

Drain pineapple and reserve juice. Add juice to 1/2 cup hot water and heat to boiling. Soften gelatin in 1/4 cup cold water. Dissolve softened gelatin in hot water-juice mixture. Let cool until it starts to set, don't let the gelatin harden. Put cranberries through a grinder. Add ground berries, pineapple, nuts and sugar to cooled gelatin mixture. Mix well. Pour into a bowl or mold. Refrigerate until completely set. Place mold in a warm water bath and run a knife around the edges to loosen. Invert onto a serving plate, garnish with parsley and a dollop of sour cream or whipped cream.

Form **W-9**
(Rev. December 2014)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type
See Specific Instructions on page 2.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification; check only one of the following seven boxes.
☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate
☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶
Note. For a single-member LLC that is disregarded, do not check LLC; check the appropriate box in the line above for the tax classification of the single-member owner.
☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):
Exempt payee code (if any)
Exemption from FATCA reporting code (if any)
(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.)
Requester's name and address (optional)

6 City, state, and ZIP code

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

or

Employer identification number
___ ___ – ___ ___ ___ ___ ___ ___ ___

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at www.irs.gov/fw9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA codes(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

Our Father which art in heaven
hallowed be thy name
thy kingdom come,
thy will be done,
on earth as it is in heaven
Give us this day our daily bread
And forgive us our trespasses
as we forgive them that trespass against us
And lead us not into temptation
but deliver us from evil
[For thine is the kingdom,
the power and the glory
for ever and ever.]
Amen

TEST FAX 01

This Test was sent by: Tech

Dear Dad,

Microchip Technology is pleased to offer you access to unique savings and benefits through our special group auto and home insurance program. As a Microchip Technology employee you can apply for top-quality auto and home insurance with special group discounts from MetLife Auto & Home® — a leading provider of at-work benefits.

This program is not available to the general public. It was designed especially for employees of participating groups.

The program offers money-saving discounts not available through many other group insurance programs. These include:

- Group Discount of up to 15%
- Employee Tenure Discount of up to 20%
- Payroll Deduction Discount of up to 10%
- Multi-Policy Discount of up to 10% when you insure both your auto and your home with us.

This auto insurance program for Microchip Technology employees offers you auto insurance at affordable group discounts and with superior coverage. Keep in mind, our program also offers the unique benefit and affordability of automatic payroll deduction of your premium for smaller, more manageable payments. A variety of other policies are also available, including home, renter's, condo, personal excess liability, and boat.

For your convenience, price quotes are available by phone. Just call **1 800 GET-MET 8 (1-800-438-6388)**. You'll learn, in a few short minutes, how much you could save with this insurance program. We look forward to hearing from you.

Sincerely,

Nicole L. Chretien
Assistant Vice President
MetLife Auto & Home

P.S. Join your fellow Microchip Technology employees who have already called and saved. Call **1 800 GET-MET 8** today.

*In NC, auto policies are issued with state-mandated industry-wide coverages.

MetLife Auto & Home is a brand of Metropolitan Property and Casualty Insurance Company and its affiliates, Metropolitan Casualty Insurance Company, Metropolitan Property and Casualty Insurance Company, Metropolitan General Insurance Company, Metropolitan Group Property and Casualty Insurance Company, and Metropolitan Lloyds Insurance Company of Texas, all with administrative home offices in Warwick, RI. Coverage, rates, and discounts are available in most states to those who qualify. MetLife®, MetLife Auto & Home® are licensed in Minnesota.

TYPEFONT TEST — March 19 [2]

We begin our story in New York. There once was a girl known by everyone and no one. Her heart belonged to someone who couldn't stay. They loved each other recklessly. They paid the price. She danced to forget him. He drove past her street each night. She made friends and enemies. He only saw her in his dreams. Then one day he came back. Timing is a funny thing. But everyone was watching. She lost him but she found herself and somehow that was everything. [13]

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

Securing your Linksys Wireless Router BEFW11S4

Abetract

Current implementations of the 802.11b wireless LAN standards have several potential pitfalls for security. However, if all in security mechanisms in the 802.11b protocol can be used to mitigate most security risks.

Out of the box, the Linksys default configuration is insecure. This paper examines how to configure the Linksys Wireless Access Point (BEFW11S4) in a manner which will improve its security of the of your Wireless LAN

Introduction

Wireless networks are becoming increasingly common due to the ease and cost of deployment of the LAN using wireless technologies. Wireless networks provide different challenges than wired networks, especially in securing data in transit between the client and the wireless access point. The wireless standard 802.11b provides mechanisms for securing wireless data, and deep to the limitations of the standard when the provided mechanisms are deployed and maintained in a systematic manner data can be secured against all but the most determined and patient attacker

This paper describes security strategies for the Linksys Wireless Access Point (WAP) model BEFW11S4 Version 2 and the Linksys Instant Wireless Network Adapter Version model WCP11, version 3

This paper assumes the user is familiar with the Linksys web-based management interface, and how to use a web browser

Configuration Recommendations

For the Linksys Wireless Access Point I recommend the following configuration settings to secure your wireless LAN

1. Reset admin password
2. Reset default SSID
3. Disable SSID Broadcast
4. Change from default channel
5. Enable WEP with 128 bit key
6. Change Authentication Type to Shared Key

The following sections will describe why and how you should do these steps

Reset Admin Password

From the factory the Linksys WAP comes with a default password of "admin". The Linksys WAP uses a web based interface, and this interface is accessible to anyone on your network. Because this is a wireless network, anyone who can access your network

With signal disconnected

- hit ctrl d
- in password screen type "dragvzw"
- go to settings menu
- on right side "preferred operating mode"
  - select LTE only if in perfect 4G
  - select Global if searching for 4G and 3G
  - select HDR if 3G only
  - don't use CDMA because it is 1X dial up speed and very temperamental
- select ok after making selection
- wait for VZAccess to establish network and then connect signal

Abstract

This is the abstract. It may be typeset in italic if you like. The ENTCS Style Guide for Authors explains how this and other items may be found. Please do not alter the size of the abstract box. The Home Page for this style is at http://www.elsevier.nl/locate/entcs.

Key words: Please list keywords from the approved list, separated by commas.

1 Introduction

This is an example of a LaTeX document. It does not necessarily illustrate the use of any particular macros, but rather gives the general appearance or style that we hope authors will follow. The intention is to ensure uniformity of presentation in the Electronic Notes in Theoretical Computer Science series. Individual authors are welcome to use any LaTeX package they like, to define their own macros and layout, provided that these do not depart from the general appearance of papers in the series. However, authors are specifically warned that they should not redefine the standard LaTeX commands, as these may have been changed by the publishers to conform to the house style.

Please note that the ENTCS Home Page, at http://www.elsevier.nl/locate/entcs, should be consulted frequently for the latest information about the refereeing and publication process, as well as for the latest version of this document.

The ENTCS macro package consists of two files, entcs.cls and entcs.sty. The cls file contains basic definitions for the overall layout, while the sty file is for use in defining special symbols and environments. Some of the features provided by these files will be described in the following sections.

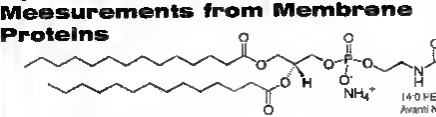
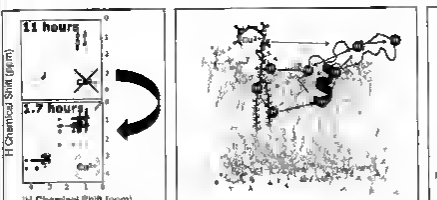
New Copper-Chelated Lipid

Use of a Copper-Chelated Lipid Speede Up NMR Meesurements from Membrane Proteins





Avanti thanks Kazutesh Yamamoto and Ayyalusamy Ramamoorthy for their generous help in supplying the above figures.

Recent studies have demonstrated the abilities of solid-state NMR techniques to solve atomic-level-resolution structures and dynamics of membrane-associated proteins and peptides. However high-throughput applications of solid state NMR spectroscopy are hampered by long acquisition times due to the low sensitivity of the technique. In this study we demonstrate the use of a paramagnetic copper-chelated lipid to enhance the spin-lattice relaxation and thereby speed up solid state NMR measurements. Fluid lamellar phase bicelles composed of a lipid, detergent and the copper-chelated lipid and containing a uniformly (15)N-labeled antimicrobial peptide, subtilosin A, were used at room temperature. The use of a chelating lipid reduces the concentration of free copper and limits RF-induced heating, a major problem for fluid samples. Our results demonstrate a 2.2-fold speed increase and a 2.7-fold improvement in signal-to-noise ratio for solid-state NMR experiments under magic-angle spinning and static conditions, respectively. Furthermore, solid-state NMR measurements are shown to be feasible even for nanomole concentrations of a membrane-associated peptide.

Full Frontal

Director Steven Soderbergh's "unofficial bargain sequel" to his 1989 breakout film *Sex, Lies and Videotape*, involves a mistaff switcheroo this time as inquiring reporter Julia Roberts interviews Blair Underwood in a film within a film scenario. Shooting with digital video, the indie helmer brought the film in for a bargain basement budget of about $2 million. Roberts laughingly refers to *Full Frontal* as "my little *Dogma* flick."

Wireless Security Setup

Please keep for your records

Your new Wireless DSL Gateway will enable you to take full advantage of some of the newest technologies available today. It is simple to use the wireless networking features built into your new Verizon DSL Gateway.

To connect your computing devices to the Wireless Gateway, you will need to refer to information located on the bottom of the Wireless Gateway.

Copy the WiFi Protected Access (WPA2) Key and Enhanced Service Set Identifier (ESSID) from the sticker on the bottom of the gateway. (WEP is not required for wireless setup.) The Wireless Gateway uses WPA2 encryption by default. To use the default setting, your wireless PC must be configured for WPA2 during setup.

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server, or one of a modem, connect your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

INSTRUCTIONS FOR ProFLAG™ BLADE AND TEAR DROP

Box Includes: 1) ProFlag™ pole 2) ProFlag™ flag and 3) Professional ProFlag™ Carry Bag

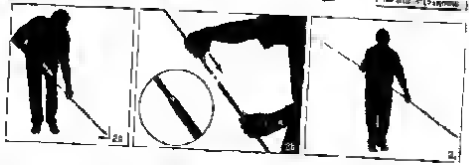
Also includes one of following accessories: 1) Deluxe Flag Base Stand or 2) Deluxe Ground Stake

POLE ASSEMBLY

Step 1 Remove all pole segments from the carry bag

Step 2. (2a) Starting with the largest diameter segment, (middle) the bottom (butt) segment and flag pole angled to the ground. (2b) Using the next smaller diameter segment, insert the soil end into the top of the largest pole segment.

Note: To ensure proper fit ensure segments are fully inserted.



Step 3 Repeat until all segments are connected.

BLADE FLAG FABRIC / POLE ASSEMBLY

Step 1 Keeping the pole wedged to the ground, insert top of the pole into bottom of flag fabric pocket.

Step 2. Work flag fabric down until end of pole completely inside end of the flag fabric pole pocket. This will ensure best and proper flag fit on pole.

Note: We keep the fabric down slowly makes it easier to slip flag fabric completely through

Step 3. Pressing and holding the flag fabric again at the pole, use the other hand and secure the hook on the flag "shock cord" to the eyelet on the pole

Note: To take ProFlag™ assembly down, follow steps in reverse order.

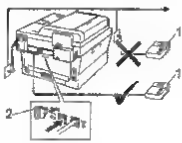
Connecting an external TAD (telephone answering device)

You can connect an external Telephone Answering Device (TAD) to the same line as your machine. When the TAD answers a call your machine will "listen" for the CNG (fax calling) tones sent by a sending fax machine. If it hears them it will take over the call and receive the fax. If it does not hear them it will let your TAD take a voice message and the display will show `Telephone`.

The external TAD must answer within four rings (we recommend you set it to two rings). This is because your machine cannot hear the CNG tones until the external TAD has picked up the call. The sending machine will send CNG tones for only eight to ten seconds longer. We do not recommend using the toll saver feature on your external TAD. It needs more than four rings to activate it.

Unless you are using Distinctive Ring, the TAD must be connected to the EXT. jack of the machine.

Before you connect an external TAD (telephone answering device), remove the protective cap (2) from the EXT. jack on the machine.



1 **TAD**

2 **Protective Cap**

Note

If you have problems receiving faxes, reduce the ring delay setting on your external TAD.

Connections

The external TAD must be plugged into the back of the machine (into the jack labeled EXT. Your machine cannot work properly if you plug the TAD into a wall jack (unless you are using Distinctive Ring).

1. Plug the telephone line cord from the telephone wall jack into the back of the machine, in the jack labeled LINE.
2. Plug the telephone line cord from your external TAD into the back of the machine, in the jack labeled EXT. (Make sure the cord is connected to the TAD at the TAD's telephone line jack, and not its handset jack.)
3. Set your external TAD to four rings or less. (The machine's Ring Delay setting does not apply.)
4. Record the outgoing message on your external TAD.
5. Set the TAD to answer calls.
6. Set the Receive Mode to `External TAD`. (See *Choose the correct Receive Mode* on page 27.)

Proclamation

WATER RESTRICTIONS IMPOSED
for the remainder of Irrigation Season

WHEREAS, The Payson City Council is authorized to protect and provide for the public health, safety and general welfare of its citizens; and

WHEREAS, the City is experiencing extreme drought conditions with our pressurized irrigat ar system and

WHEREAS, the Payson Lakes reservoirs are at critical low levels and are not sufficient to maintain the Pressurized Irrigation System through the irrigation season and

WHEREAS, section 10.5 of the Payson City Ordinance authorizes and empowers the Mayor during times of emergency to seize or order restriction the use of water; and

NOW, THEREFORE, Richard D. Adams, Mayor of the City of Payson, do hereby declare that effective August 12, 2013, and continuing until the end of the irrigation season (September 30, 2013), the Citizens of Payson shall restrict watering with the Pressurized Irrigation system to twice each week as follows:

All water users with odd numbered addresses shall water only on Tuesday and Saturday

All water users with even numbered addresses shall water only on Monday and Friday

There shall be NO watering on Wednesday, Thursday and Sunday

Watering times are from 6:00 p.m. to 10:00 a.m. Restrict watering times to 20 minutes or less per station area.

Large water users, Churches, Schools and City parks will water during the day so that the residents will have sufficient pressure to water their properties.

City employees will be enforcing the water restrictions first with a warning and then with a citation. The first citation shall be considered an infraction with a non-mandatorial fine of $25. The second and subsequent citation shall be considered a Class C Misdemeanor and shall require mandatory court appearance in the Payson Justice Court and may result in a fine up to $750.00 and/or incarceration up to ninety (90) days.

Cross-connecting culinary water with pressurized irrigation water is illegal and can contaminate drinking water.

Election Judges Needed for the November 6, 2013 Municipal Election
Application available at the Payson City Center or www.paysonutah.org.
Submit application as soon as possible to: Payson City Offices.
